*NA Not available.* 1 For the Censuses of 1939 and 1940, in the Census year; for all other Censuses, in the calendar year preceding the Census. 2 Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably depleted in the acreage of corn harvested for grain. 3 Under 10 acres. Not fully comparable for the various Census years because of differences in definition of cropland used only for pasture. See text.
