</table>

---

**Note:** The table displays the quantities of poultry products sold in various counties, with data for both 1964 and 1959. The table includes columns for each county, with specific values indicating the quantities. The table continues with similar data for other counties, showcasing the agricultural outputs from different regions.

**Notes:**
- The table provides statistics for counties in the years 1964 and 1959, including data on poultry and products.
- The data includes various metrics such as population and agriculture outputs.
- The comprehensive statistical data is useful for understanding the economic and demographic landscape of the counties during those years.
