**Note:** Figures are estimates and are not directly comparable to those of other years. In most farm income and value tables, farms with sales of $2,500 and over are the focus, and the data presented for farms with lower sales limitations are for nonfarm operators. Following are the expanded definitions of the types of tenancies shown in the table with sales of $2,500 and over. For 1959 to 1964, the definitions were based on the Census of Agriculture; for 1974, the definitions were based on the Census of Economic Activities. Tenants are those persons who manage farms for others, usually in exchange for a share of the crops or livestock produced or a share of net income. Full owners and managers are those persons who own farms or, if they do not own them, receive a share of the crops or livestock produced or a share of net income. Partial owners are those persons who share in the operation of farms that they do not own. In the 1959 to 1964 tables, share cash means the amount paid in cash; in the 1974 table, share cash means the amount paid in cash or on credit. Share crop means the share of crops produced that is paid to the share crop operator; in the 1974 table, share crop means the share of crops produced that is paid in cash or on credit. Livestock share means the share of livestock produced that is paid to the livestock share operator; in the 1974 table, livestock share means the share of livestock produced that is paid in cash or on credit.
