

Released September 29, 2008, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on *Agricultural Prices* see page 43, office hours 7:30 a.m. to 4:00 p.m. ET.

September Farm Prices Received Index Off 2 Points From Last Month

The preliminary All Farm Products Index of Prices Received by Farmers in September, at 154 percent, based on 1990-92=100, decreased 2 points (1.3 percent) from August. The Crop Index is down 3 points (1.7 percent) and the Livestock Index decreased 3 points (2.2 percent). Producers received lower prices for wheat, hogs, soybeans, and broilers and higher prices for lettuce, turkeys, eggs, and cottonseed. In addition to prices, the overall index is also affected by the seasonal change based on a 3-year average mix of commodities producers sell. Increased monthly marketings of soybeans, corn, apples, and potatoes offset decreased marketings of cattle, wheat, broilers, and grapes.

The preliminary All Farm Products Index is up 14 points (10 percent) from September 2007. The Food Commodities Index, at 152, decreased 1 point (0.7 percent) from last month but increased 9 points (6.3 percent) from September 2007.

Prices Paid Index up 2 Points

The September Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) is 194 percent of the 1990-92 average. The index is up 2 points (1.0 percent) from August and 32 points (20 percent) above September 2007. Higher prices in September for mixed fertilizers, potash & phosphate materials, nitrogen fertilizers, and herbicides more than offset lower prices for diesel fuel, complete feeds, feed supplements, and hay & forages.

Index Summary Table

Index 1990-92=100	2007		2008	
	Aug	Sep	Aug	Sep
Prices Received	139	140	156	154
Prices Paid	161	162	192	194
Ratio ¹	86	86	81	79

¹ Ratio of index of prices received by farmers to index of prices paid by farmers.

Prices Received by Farmers

The September All Farm Products Index is 154 percent of its 1990-92 base, down 1.3 percent from the August index but 10 percent above the September 2007 index.

ALL CROPS: The September index is 174, down 1.7 percent from August but 23 percent above September 2007. Index decreases for oil-bearing crops, potatoes & dry beans, food grains, and feed grains & hay more than offset the index increases for cotton, commercial vegetables, and fruits & nuts.

Food Grains: The September index, at 237, is 8.1 percent below the previous month but 9.7 percent above a year ago. The September all wheat price, at \$6.91 per bushel, is down 73 cents from August but 15 cents above September 2007.

Feed Grains & Hay: The September index is 222, down 1.8 percent from last month but 48 percent above a year ago. The corn price, at \$5.17 per bushel, is down 9 cents from last month but \$1.89 above September 2007. The all hay price, at \$161 per ton, is down \$4.00 from August but up \$34.00 from last September. Sorghum grain, at \$8.39 per cwt, is 1 cent below August but \$2.22 above September last year.

Cotton: The September index, at 107, is up 10 percent from August and 24 percent above last year. The September price, at 64.6 cents per pound, is up 6.1 cents from the previous month and 12.6 cents above last September.

Oil-Bearing Crops: The September index, at 189, is down 17 percent from August but 44 percent higher than September 2007. The soybean price, at \$11.70 per bushel, decreased \$1.10 from August but is \$3.55 above September 2007.

Fruits & Nuts: The September index, at 168, is up 6.3 percent from August and 5.7 percent higher than a year ago. Price increases for grapes, oranges, and apples more than offset price decreases for strawberries, lemons, and peaches.

Commercial Vegetables: The September index, at 151, is up 7.1 percent from last month but 2.6 percent below September 2007. Price increases during September for lettuce and onions more than offset price declines for tomatoes, sweet corn, and cauliflower.

Potatoes & Dry Beans: The September index, at 165, is down 15 percent from last month but 57 percent above September 2007. The all potato price, at \$9.08 per cwt, is down \$2.25 from August but up \$3.27 from last September. The all dry bean price, at \$39.10 per cwt, is up \$1.10 from the previous month and \$14.60 above September 2007.

LIVESTOCK & PRODUCTS: The September index, at 134, is 2.2 percent below last month and down 2.9 percent from September 2007. Compared with a year ago, prices are higher for hogs, cattle, and turkeys. Prices for milk, eggs, and calves are down from last year. Broilers remain unchanged.

Meat Animals: The September index, at 125, is down 3.8 percent from last month but 3.3 percent higher than last year. The September hog price, at \$53.70 per cwt, is down \$6.90 from August but \$6.90 higher than a year ago. The September beef cattle price of \$94.90 per cwt is down \$1.20 from last month but \$1.80 higher than September 2007.

Dairy Products: The September index, at 138, is down 2.1 percent from a month ago and 17 percent lower than September last year. The September all milk price of \$18.00 per cwt is down 40 cents from last month and \$3.80 from September 2007. The fluid grade milk price is down 40 cents and the manufacturing grade milk price is 20 cents below the previous month.

Poultry & Eggs: The September index, at 149, is down 1.3 percent from August but unchanged from a year ago. The September market egg price, at 85.6 cents per dozen, increased 4.1 cents from August but is 10.5 cents below September 2007. The September broiler price, at 45.0 cents per pound, is down 2.0 cents from August but unchanged from a year ago. The September turkey price, at 66.4 cents per pound, is up 3.0 cents from the previous month and 6.0 cents from a year earlier.

¹ Entire month.

² Including milk diverted to manufacturing.

³ IN no longer published due to insufficient manufacturing grade milk volume.

⁴ Before deductions for hauling. Includes quality, quantity, and other premiums. Excludes hauling subsidies.

⁵ Preliminary.

⁶ Animals sold for dairy herd replacement only. Prices published January, April, July and October.

**Parity Price Equivalent for Manufacturing Grade Milk ¹: United States,
August and September 2008, with Comparisons**

Item	Unit	Sep 2007	Aug 2008	Sep 2008
Parity Equivalent	Dollars per Cwt	37.40	46.60	46.50
Average Price F.O.B ^{2 3}	Dollars per Cwt	20.10	17.60	17.40
Average Fat Test of Milk ^{2 3}	Percent	3.85	3.83	3.91

¹ The parity price equivalent during 2008 is 92.1 percent of the parity price of all milk sold to plants, compared with 91.5 percent in 2007. For additional details, see January 2008 issue of "Agricultural Prices".

² Beginning in August 2007, Parity Price for Manufacturing Grade Milk is computed using the same methodology as Parity Prices for other commodities.

³ Preliminary for September 2008.

¹ Parity prices are computed under the provisions of Title III, Subtitle a, Section 301 (a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948, 1949, and 1956. See January "Agricultural Prices" for details on adjusted base price and parity price computations.

² Seasonally adjusted price as percentage of parity price.

³ Wholesale extracted. Adjusted base price derived from state annual averages prices weighted by production. For 1982 through 1985 the national averages are the support prices.

⁴ Equivalent packinghouse-door returns for CA, NY (apples only), OR (except peaches), and WA. Price at point of first sale for other states.

⁵ Equivalent returns at packinghouse door.

⁶ Includes some processing.

⁷ Based on "as sold" prices for fresh fruit in all states.

⁸ Prices in-shell basis except almonds which are shelled basis.

⁹ F.O.B. shipping point prices.

Marketing Year for Specified Commodities

Corn for Grain: September 1 to August 31 for U.S.; July 1 to June 30 for Texas; August 1 to July 31 for Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, and Tennessee; September 1 to August 31 for Arizona, California, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Missouri, Nebraska, New Mexico, Ohio, Pennsylvania, South Dakota, Virginia, and West Virginia; October 1 to September 30 for all other States.

Potatoes: The marketing year extends over a 21 month period beginning in November preceding the specified crop year and extending into July the following year. November (previous year)-May for winter crop potatoes; April-August for spring crop potatoes; June-December for summer crop potatoes; July-July (following year) for fall potatoes.

Sorghum for Grain: September 1 to August 31 for U.S.; June 1 to May 31 for Texas; August 1 to July 31 for Alabama, Arkansas, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Tennessee; September 1 to August 31 for all other States.

Soybeans: September 1 to August 31 for U.S.; July 1 to June 30 for Texas; August 1 to July 31 for Louisiana and Mississippi; September 1 to August 31 for all other States.

Austrian Winter Peas: July 1 to June 30 for U.S.; Idaho, Montana, and Oregon.

Dry Edible Peas: July 1 to June 30 for U.S.; Idaho, Montana, North Dakota, Oregon, and Washington.

Lentils: July 1 to June 30 for U.S.; Idaho, Montana, North Dakota, and Washington.

Oranges:

Arizona Early, Mids, and Navels	November 1 to March 31	75 pounds
Arizona Valencias	February 1 to June 30	75 pounds
California Navels	November 1 to June 15	75 pounds
California Valencias	March 15 to December 20	75 pounds
Florida Early and Midseason	October 1 to April 1	90 pounds
Florida Valencias	January 1 to July 31	90 pounds
Texas Early, Mids, and Navels	September 25 to February 15	85 pounds
Texas Valencias	January 15 to May 15	85 pounds

Grapefruit:

Arizona	November 1 to June 30	67 pounds
California	November 1 to October 31	67 pounds
Florida	September 10 to July 1	85 pounds
Texas	October 1 to May 30	80 pounds

Lemons:

Arizona	September 1 to March 31	76 pounds
California	August 1 to July 31	76 pounds

Tangelos:

Florida	October 15 to March 1	90 pounds
---------	-----------------------	-----------

Tangerines:

Arizona	November 1 to April 30	75 pounds
California	November 1 to May 15	75 pounds
Florida	October 1 to May 1	95 pounds

¹ Monthly farm marketings, based on a sample survey, as a percent of total used for calculating marketing year average prices.

Reliability of Prices Received Estimates

Definition: Prices received represent sales from producers to first buyers. They include all grades and qualities. The average commodity price from the survey multiplied by the total quantity marketed theoretically should give the total cash receipts for the commodity.

Survey Procedures: Primary sales data used to determine grain prices were obtained from probability samples of about 2000 mills and elevators. These procedures ensure that virtually all grain moving into commercial channels has a chance of being included in the survey. Generally, States surveyed account for 90 percent or more of total U.S. production. Livestock prices are obtained from packers, stockyards, auctions, dealers, and market check data from AMS-USDA, private marketing organizations, and state commodity groups and agencies. Inter-farm sales of grain and livestock are not included since they represent very small percentages of the total marketings. Grain marketed for seed is also excluded. Fruit and vegetable prices are obtained from sample surveys and market check data from AMS-USDA, private marketing organizations, state agencies, and universities.

Summary and Estimation Procedures: Survey quantities sold are expanded by strata to state levels and used to weight average strata prices to a state average. State prices are then weighted to a U.S. price based on expanded marketings. Recommendations are prepared by the State Field Offices and reviewed by the Agricultural Statistics Board in Washington, D.C. State recommendations are reviewed for reasonableness with survey data, other States, and recent historic estimates.

Revisions: For most items, the current month's preliminary price represents a 3-5 day period around the 15th of the month. Previous month's prices represent actual dollars received for quantities sold during the entire month. Revisions are published in monthly issues of Agricultural Prices.

Reliability: U.S. price estimates based on probability surveys generally have a sampling error of less than one percent for the major commodities such as corn, wheat, soybeans, cotton, and rice. Current methods of summarization for non-probability commodities are not designed directly to calculate sampling errors. However, analytical measures approximate the U.S. relative sampling errors at around five percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

Prices Paid by Farmers

The September Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) at 194 (1990-92=100), up 1.0 percent from August 2008 and 20 percent from September 2007.

PRODUCTION INDEX: The September index, at 205, increased 1.0 percent from last month and 27 percent from last year. Higher prices in September for mixed fertilizers, potash & phosphate materials, nitrogen fertilizers, and herbicides more than offset lower prices for diesel fuel, complete feeds, feed supplements, and hay & forages.

Feed: The September index, at 201, decreased 2.0 percent from August but increased 37 percent from last September. Since August, lower prices for complete feeds, feed supplements, hay & forages, and feed grains more than offset higher prices for feed concentrates.

Livestock & Poultry: The September index, at 127, decreased 0.8 percent from last month and 5.9 percent from last year. Since August, lower prices for feeder cattle more than offset higher prices for feeder pigs. The September feeder cattle price, at \$105.80 per cwt, is down \$1.00 per cwt from the August price. September feeder pigs averaged \$83.00 per cwt, up \$2.00 per cwt from August.

Fertilizer: The September index, at 516, is up 10 percent from August and 131 percent from September a year ago. Since August, potash & phosphate materials increased 16 percent, mixed fertilizers rose 12 percent, and nitrogen fertilizers are up 6.5 percent.

Chemicals: The September index, at 152, increased 3.4 percent from August and 19 percent from last September.

Fuels: The September index, at 373, is down 4.4 percent from a month earlier but 37 percent above September 2007. The diesel fuel price is down 5.5 percent, the LP gas price is down 2.6 percent, and the gasoline price is down 1.3 percent.

Machinery: The September index, at 211, increased 1.0 percent from August and 9.3 percent from last September. Since August, prices are higher for other machinery, tractors, and self-propelled machinery.

CONSUMER PRICE INDEX: The August 2008 Consumer Price Index, as issued by the Bureau of Labor Statistics, for all urban consumers (CPI-U) decreased 0.4 percent before seasonal adjustment to a level of 219.086 (1982-84=100). This compares with the July index of 219.964. For the 12-month period ending in August, the overall index increased 5.4 percent.

* Revised.

¹ Effective January 1995, prices of commercial prepared feeds are based on current U.S. prices received for corn, soybeans, alfalfa hay, and all wheat.

² The price of commercial prepared broiler feed is based on current U.S. prices received for corn and soybeans. The modeled feed uses 58 percent corn and 42 percent soybeans.

³ The price of commercial prepared layer feed is based on current U.S. prices received for corn and soybeans. The modeled feed uses 75 percent corn and 25 percent soybeans.

⁴ The price of commercial prepared dairy feed is based on current U.S. prices received for corn, soybeans, and alfalfa. The modeled feed uses 51 percent corn, 8 percent soybeans, and 41 percent alfalfa.

⁵ The price of commercial prepared turkey feed is based on current U.S. prices received for corn, soybeans, and wheat. The modeled feed used 51 percent corn, 28 percent soybeans, and 21 percent wheat.

Reliability of Prices Paid Estimates

Definition: Prices paid by farmers represent the average costs of inputs purchased by farmers and ranchers to produce agricultural commodities. Conceptually, the average price when multiplied by quantity purchased should equal total producer expenditures for the item.

Survey Procedures: The prices paid data are obtained from establishments that sell goods and services to farmers and ranchers. Annually, about 8,500 firms are randomly selected from lists by type of item sold with an average response rate in the range of 75-80 percent. Firms are asked to report the price for the specified item "most commonly bought by farmers" or that was the "volume seller". Approximately 135 items are surveyed each April to represent all production input items purchased. The survey reference period for most items is the 5 business days centered around the 15th of the month. Separate prices paid surveys are conducted for agricultural chemicals, fuels, feed, fertilizer, machinery, and seed.

Summary and Estimation Procedures: The annual April Prices Paid Survey is summarized as a nonprobability survey. Average prices reported are aggregated to the region and U.S. level using weights available from expenditure data and other administrative sources. Price recommendations are prepared by the State Field Offices and Headquarters for review by the Agricultural Statistics Board in Washington, D.C. Also, the change in price level for individual items surveyed are combined to the regional and U.S. levels, and are published as prices paid indexes referenced to a specific base period. Prices paid indexes for new autos and trucks, building materials, farm supplies, motor supplies, and marketing containers are updated based on price changes measured in selected Bureau of Labor Statistics (BLS) indexes.

Revisions: Any revisions are published in the monthly and in annual issues of Agricultural Prices. The basis for revision must be supported by additional data that directly affect the level of the estimate. More revisions are likely in April when separate prices paid surveys are conducted, in lieu of BLS indexes, by the USDA to measure price change.

Reliability: Current methods of summarization in April are not designed directly to calculate sampling errors. However, analytical measures approximate the U.S. relative sampling errors for major items around 10 percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

Program Change: Effective January 1, 1995, the National Agricultural Statistics Service updated the weights and changed the construction of its prices paid and received by farmers indexes. A Federal Register Notice dated October 28, 1994 discussed these program modifications.

A 1990-92 reference and base period replaced the 1977 reference and 1971-73 base weight period. Five-year moving average weights replaced the current fixed 1971-73 base period weights. The 1910-14=100 price indexes, required by statute for computing parity prices, were linked forward based on the changes in the new 1990-92=100 indexes. The new indexes were constructed by multiplying the ratios of the current prices to the base period prices by the moving average weights (adjusted for seasonal marketing patterns for the prices received indexes).

Information Contacts

General questions should be directed to Kevin Barnes, Chief, Environmental, Economics and Demographics Branch at (202) 720-6146. Below are the commodity specialists to contact for additional information.

ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

INTERNET ACCESS

All NASS reports are available free of charge on the worldwide Internet. For access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.

PRINTED REPORTS OR DATA PRODUCTS

CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada)
Other areas, please call 703-605-6220 FAX: 703-605-6900
(Visa, MasterCard, check, or money order acceptable for payment.)

ASSISTANCE

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics Hotline** at **800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

USDA Data Users' Meeting

October 20, 2008

Doubletree Hotel Chicago O'Hare Airport-Rosemont

Rosemont, Illinois

(847) 292-9100

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at www.nass.usda.gov/forum/ or contact Marjorie Taylor (NASS) at (202) 690-8141 or at marjorie_taylor@nass.usda.gov.

This Data Users' Meeting precedes an Industry Outlook meeting that will be held at the same location on October 21, 2008. The Outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Meeting see the Livestock and Marketing Information Center (LMIC) homepage at www.lmic.info or contact Jim Robb at (720) 544-2941 or at robb@lmic.info.
