

BROILER CHICKS
Placed in 22 States - 1963

March 4, 1964

There were 2,054,365,000 broiler chicks placed in 22 important broiler producing States in 1963, according to the Crop Reporting Board. This was 3 percent more than the number placed in these States in 1962 and the largest of record. These States produce about 93 percent of the Nation's broilers. Fewer broiler chicks were placed in 1963 than a year earlier in 12 States, but increases in the other States resulted in an overall increase of 62 million chicks. The largest increases were in Arkansas, Mississippi, Alabama, Maryland and Delaware. Weekly placements reached a high of 46,872,000 during the week ending May 4. The low was during the week ending September 28, when 33,506,000 chicks were placed. Georgia led with 375,721,000 chicks placed during 1963, followed by Arkansas with 27,944,000, Alabama with 242,922,000, North Carolina with 219,838,000, Mississippi with 164,210,000, Texas with 138,017,000, Maryland with 135,105,000, Delaware with 110,301,000, Maine with 66,285,000, and California with 62,587,000. These 10 States had placements of 1,786,930,000 or 87 percent of all the broiler chicks placed in the 22 States during 1963.
