CATTLE ON FEED

CATTLE ON FEED DOWN 2 PERCENT

Cattle and calves on feed for the slaughter market on July 1, 1967 in 32 major feeding States totaled 8,724,000 head, 2 percent less than a year earlier, according to the Crop Reporting Board.

Decreases from a year earlier in the number on feed weighing between 500 and 899 pounds more than offset increases for the remaining weight groups. The number placed on feed during the past quarter was 1 percent above placements during the comparable period in 1966. Marketings during this period were up 9 percent.

The July 1 number on feed was 17 percent below the number on feed April 1 this year as compared with a 13 percent decrease during the same period last year.

NORTH CENTRAL REGION SHOWS LITTLE CHANGE

There were 5,525,000 cattle and calves on feed in the North Central States, a decline of only 23,000 head from the number on feed a year earlier. The two leading States in this region, Iowa and Nebraska, were up 3 percent and 2 percent, respectively. Increases were also recorded for Ohio, Indiana, and Michigan. The number on feed in Wisconsin was unchanged while the remaining States were down from 3 to 18 percent from a year earlier.

WESTERN STATES DOWN 6 PERCENT

The number of cattle on feed for slaughter market in the 11 Western States on July 1, at 2,313,000 head, was 6 percent less than a year earlier. Increases in 6 Western States ranging from 2 percent in Colorado to 21 percent in New Mexico were not enough to offset the sharp decline of 18 percent in the number on feed in California and lesser declines in the remaining States.
OTHER CATTLE FEEDING STATES

The nine other cattle feeding States (Pennsylvania, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Oklahoma, and Texas) had 886,000 cattle on feed July 1 -- up 3 percent from a year earlier. Texas, which normally accounts for over half the number on feed in this group showed an increase of 14 percent. Mississippi and Florida also showed increases but the remaining 6 States had fewer cattle on feed.

PLACEMENTS AND MARKETINGS UP

Cattle and calves placed on feed in the 32 States during April-June totaled 3,844,000, up 1 percent from the same period in 1966. Placements were up 4 percent in the North Central States, but down 7 percent in the Western States. Shipments of stocker and feeder cattle into 8 Corn Belt States during April and May were down 13 percent from the same period in 1966.

Marketings of fed cattle for slaughter during the second quarter totaled 5,614,000 head -- 9 percent above the corresponding period in 1966. Fed cattle marketings were up 8 percent in the North Central States and 5 percent in the Western States.

Total slaughter of steers and heifers under Federal Inspection during the April-June quarter was up 9 percent from a year earlier.

Beef steers and heifers (prime, choice and good) sold out of first hands for slaughter at 15 livestock markets during April-June were down 4 percent from the same period in 1966. These data do not include direct sales to packing plants, mixed lots, and some deliveries bought on prior contract.

WEIGHT OF CATTLE ON FEED

The July 1 number of cattle and calves on feed in the 32 States by weight groups showed greater numbers in the light and the heavy groups, while the middle weight groups were below a year earlier. The number in each weight group and percentage change from July 1 last year are as follows: under 500 pounds, 400,000 head, up 18 percent; 500-699 pounds, 1,900,000 head, down 8 percent; 700-899 pounds, 3,697,000 head, down 6 percent; 900-1,099 pounds, 2,313,000 head, up 7 percent; 1,100 pounds and over, 414,000 head, up 12 percent.

KINDS ON FEED

Cattle feeders had 6,159,000 steers and steer calves on feed July 1, 1967 -- about the same as a year earlier. Heifers and heifer calves, at 2,540,000 head, were down 6 percent. Cows and others on feed totaled 25,000 head on July 1 compared with 32,000 a year earlier.

1/ DATA COLLECTED BY LIVESTOCK DIV. C & MS AND STATISTICAL REPORTING SERVICE.
2/ STANDARD, COMMERCIAL AND UTILITY.
3/ PARTIAL RECEIPTS.
(Continued from page 2)

TIME ON FEED

Cattle and calves on feed less than 3 months totaled 3,631,000 -- about the same as a year earlier. The total on feed 3-6 months, at 3,045,000 head, was down 3 percent. Cattle on feed 6 months or longer totaled 2,048,000 head, down 2 percent.

MARKETING INTENTIONS

Of the July 1 number on feed, cattle feeders intend to market 5,073,000 head during July, August, and September. This would be 2 percent above July-September marketings last year from July 1 numbers. Intentions are to market 32 percent of the 3-month total during July, 34 percent during August, and 34 percent during September. Expected marketings are based on the usual relationship between survey data and actual marketings.

JUNE MARKETINGS FOR 15 LIVESTOCK MARKETS

Steers and heifers marketed out of first hands for slaughter at 15 livestock markets during June 1967 totaled 474,182 head, 8 percent less than during June 1966. Steers accounted for 325,181 head, 9 percent less than a year earlier. Heifers totaled 149,001 head, down 7 percent.

Steers and heifers marketed in the prime, choice, and good grades totaled 452,422 head, down 8 percent from June 1966.
