Estimates in this Cattle on Feed Report are based on data provided voluntarily by cattle feeders. The State Statistical Offices maintain an up-to-date list of cattle feeders stratified by feeder capacity. Data are collected by mail and by personal and telephone interviews on or about the 1st day of each survey period. Survey procedures are designed to obtain reports from all feeders in the larger size strata, and feeders in the small size strata are sampled. Of the total inventory of cattle on feed for this report 73 percent was actually reported in the survey.
