**NOTES:**
- **These holdings include stocks in both cold storage warehouses and meat packing house plants.**
- **Thousands, in millions omitted from above table.**
- **Items in terms of pounds except where otherwise indicated.**
- **Figures shown subject to revision. Revised figures will appear in next month's report.**
- **While the Bureau feels assured of the completeness and accuracy of the total amount of poultry reported, it cannot vouch for the accuracy and classification of the various sizes of chickens. There are a number of concerns whose holdings are extremely heavy, who find it impractical to make segregation on their reports, consequently there will be fryers contained in the figures shown for droilers, roasters and possibly miscellaneous poultry.**

D- 7/12/39  2:10 P.M.

G. F. McCARTHY
LOCAL REPRESENTATIVE
COLD STORAGE REPORT
AS OF JULY 1, 1939

The into-storage movement of dairy products and eggs con-
tinued during June but at a rate slightly less than normal. A
net increase of 47,403,000 pounds occurred in the stocks of
creamery butter. Commercial stocks were increased by 60,629,000
pounds, and Federal Surplus Commodities Corporation and relief
stocks were increased by 10,890,000 pounds. Dairy Products Mar-
ting Association stocks were reduced by 24,116,000. The June
movement this year compares with a net into-storage movement
last year of 66,201,000 pounds and a 5-year (1934-38) average of
57,071,000 pounds.

Holdings of all varieties of cheese were increased dur-
ing June by 19,167,000 pounds. The net increase a year ago
was 23,628,000 and the 5-year average increase 20,594,000 pounds.

The net into-storage movement of shell eggs totaled
1,091,000 cases and of frozen eggs 22,477,000 pounds or a total
case-equivalent increase from June 1, of 1,733,000 cases. This
total net increase compares with 1,373,000 during June last
year and 1,811,000 for the 5-year average.

Stocks of frozen fruits, both quick-freeze and cold pack,
were increased during June by an indicated total of 19,985,000
pounds. In this period a year ago the increase was 35,065,000
pounds.

Frozen vegetable stocks were increased by 5,524,000
pounds, which quantity compares with 12,170,000 pounds for
June 1938.

Frozen poultry stocks were increased slightly during
June. The increase of 625,000 pounds compares with an in-
crease of 1,383,000 pounds a year ago, but the 5-year average
shows a net withdrawal of 614,000 pounds.

Total stocks of frozen and cured meats were reduced by
21,851,000 pounds. This quantity compares with a reduction of
32,239,000 pounds for the same period a year ago and 48,536,000
for the 5-year average. July 1 holdings were 16 percent heavier
than on July 1, 1938, but 2 percent below the 5-year average.
FRUITS AND VEGETABLES

FROZEN FRUITS

Total stocks of all frozen fruits on July 1 were reported as 103,675,000 pounds, an increase over June 1 of 19,985,000 pounds. Of the total July 1 holdings, 23,052,000 pounds were reported as unclassified. Reports indicate that of the total quantity reported, 24,753,000 pounds were in small containers of less than 30 pounds capacity and 78,922,000 were in bulk or containers of 30 pounds and over.

FROZEN VEGETABLES

Stocks of frozen vegetables were increased during June by 5,524,000 pounds. July 1 holdings exceeded those of July 1, 1933, by 19,518,000 pounds. Of the total quantity reported on hand, 3,683,000 pounds were unclassified as to variety.

------------------------

Contents of July 1 Cold Storage Report

Separate tables appearing in this report show United States stocks on hand on July 1, this year compared with previous periods, for the following groups of commodities:

Fruits and Vegetables, Frozen, page 3;
Dairy and Poultry Products, page 4;
Meats (cured and frozen) and Lard, page 5.

Special tables of cold storage holdings are included for frozen fruits, by container-size, page 3; cream, butter, American cheese, eggs and poultry, by States, page 6; and July 1, 1939, data for all commodities, by geographic regions, pages 7 and 8.
CORRECTION

JULY 1, 1939, COLD STORAGE REPORT

Due to discrepancies in the reports of one of the cold storage warehouses for June 1 and July 1, 1939, the following corrections in the figures on commercial and total stocks of creamery butter are necessary:

</table>
The seasonal into-storage movement of creamery butter continued during June. The indicated net accumulation of stocks by July 1 was 47,403,000 pounds. Commercial stocks were increased by 60,628,000 pounds. Dairy Products Marketing Association holdings were reduced by 24,116,000 pounds but Federal Surplus Commodities Corporation and relief stocks were increased by 10,830,000 pounds. Total stocks of butter were in excess of those of July 1 last year by 10,583,000 pounds and were 43,322,000 larger than the 5-year (1934-36) average. Commercial stocks were 23,945,000 pounds less than those of a year ago but exceeded the July 1 average by 4,881,000 pounds.

American cheese stocks were increased by 16,218,000 pounds during the June period. Total stocks were 18,708,000 pounds or 19 percent less than on hand a year earlier but 274,000 pounds above the 5-year average.

The net into-storage movement of shell eggs was 1,091,000 cases and frozen eggs 22,477,000 pounds. The total case-equivalent increase was 1,733,000 cases, which quantity compares with a similar movement during June last year of 1,373,000 cases and a 5-year average net increase of 1,811,000 cases. Total stocks of both shell and frozen eggs exceeded those of a year ago by an equivalent of 770,000 cases but were below the 5-year average by 354,000 cases.

The relatively slight increase in total frozen poultry stocks was 625,000 pounds, and compares with an increase of 1,283,000 for June 1938. The 5-year average for the same period indicates a decrease of 614,000 pounds.

1/ Frozen eggs are converted on the basis of 35 pounds to the case.
2/ SPECIAL NOTE: 79 percent of total frozen eggs reported as of July 1, 1939, were classified as follows: Whites - 34 percent; Yolks - 21 percent; and Mixed - 45 percent.
July 1, 1939, Cold Storage Report

MEATS AND LARD

Stocks of all frozen and cured meats, which totaled 599,977,000 pounds, were 84,450,000 heavier than those of a year earlier but 11,193,000 pounds below the 5-year (1934-38) July 1 average.

Holdings of frozen and cured beef were reduced by 1,094,000 pounds from June 1 and were 174,000 less than those of July 1 last year and 14,364,000 pounds less than the 5-year average.

Frozen and cured pork stocks, totaling 496,273,000 pounds, were 78,569,000 pounds greater than those of a year earlier but 4,724,000 less than the July 1 average.

Stocks of lard were increased during June by 6,333,000 pounds. July 1 holdings of 146,169,000 pounds were 22,103,000 pounds heavier than a year ago and 8,613,000 pounds heavier than the 5-year average.
