1/ Figures on miscellaneous poultry no longer comparable in that ducks were included in these figures previous to July 1, 1932.

2/ While the Bureau feels assured of the completeness and accuracy of the total amount of poultry reported, it cannot vouch for the accuracy of the classification of the various sizes of chickens. There are a number of concerns who find it impracticable to make segregation on their reports. Consequently, there will be fryers included in the figures shown for broilers, roasters and possibly miscellaneous poultry.

* Does not include 1976 twenty-quart cans of 82% plastic cream.
