SPECIAL IN THIS ISSUE: Report on strawberries in storage, by package-size 3

[Data for this report are collected from public, private, and semiprivate warehouses, apple houses, and meat-packing plants where food products are generally stored for 30 days or more. Commodities in space owned or leased and operated by the armed services are not reported. All November 30, data are preliminary.]

# PERCENTAGE OCCUPANCY OF PUBLIC COLD-STORAGE WAREHOUSES

END OF MONTH OCCUPANCY

## COLD STORAGE REPORT, DECEMBER 1, 1964

### Commodity Summary

Food holdings in refrigerated rooms totaled 7.8 billion pounds on December 1, according to the Crop Reporting Board. This was equal to the holdings of a year earlier but 13 percent larger than the December 1, 1958-62 average. Cooler-held stocks dropped to 4.0 billion pounds on December 1, following heavy withdrawals of fresh fruits. Freezer stocks were down to 3.8 billion pounds, the result of seasonal net withdrawals of dairy products, eggs, poultry, fruits, vegetables, and juices. Fresh apple supplies were off 7 million bushels and, at 49 million, were the same as a year earlier. Holdings of fresh pears, at 2.5 million boxes, were 8 percent larger than at this time last year. Frozen fruit in storage on December 1 amounted to 580 million pounds, 25 percent more than a year earlier and 10 percent more than average. Supplies of frozen vegetables were down 2 million from November 1 and, at 1,298 million pounds, were 3 percent less than on December 1, 1963, but 19 percent more than average. Holdings of french fries increased 41 million pounds during Nov. and moved up to 194 million pounds on December 1. Orange concentrate stocks totaled 14 million gallons, down 26 percent from a year earlier and 28 percent from average. Heavy Government withdrawals of creamery butter lowered warehouse supplies 55 million pounds. Butter stocks totaled 94 million on December 1, 61 percent under the December 1, 1963 inventory and 41 percent less than average. Supplies of American cheese were 296 million pounds, compared with 324 million at this time last year and 329 million, the average for the date. Shell eggs totaled 101 thousand cases and frozen eggs 69 million pounds. Holdings of each were below average for December 1. Holiday supplies of turkeys were down to 272 million pounds, 5 percent less than on December 1 last year, but 15 percent more than average. Warehouse holdings of meats advanced 103 million pounds to 685 million on December 1. Strong gains prevailed for beef, 39 million, and pork, 60 million. These gains together with a 4-million gain in other meats brought total meat supplies 10 percent above a year earlier and 52 percent above average.

### Storage Occupancy in Public Warehouses

Percentage occupancy of both cooler and freezer space in public refrigerated warehouses was unchanged from November 1. December 1, cooler occupancy was 58 percent of capacity, 1 point less than both a year earlier and average for the date. Freezer occupancy was 71 percent, 2 points below December 1, 1963 and 5 points under average.

### Cooler and Freezer Stock Changes

The December 1 weight in both cooler and freezer rooms totaled 7.8 billion pounds, a reduction of almost 500 million pounds from a month earlier. Reductions were principally cooler stocks which fell from 4.3 to 4.0 billion pounds during November. Withdrawals of fresh fruits, canned milk, cheese, and eggs more than countered gains in other cooler stocks reducing holdings 331 million pounds. A freezer stock reduction of 131 million pounds left 3.8 billion in storage on December 1. Supplies of all freezer items, except beef, pork, and other meats were lowered during November. December 1 holdings were 1 percent less than a year earlier, but 13 percent more than average.

### Dairy Products

Stocks of butter in storage on December 1 were 94 million pounds, 41 percent below average for the date, 61 percent less than a year earlier and the lowest December 1 inventory since 1960. Holdings declined 55 million pounds during November, compared with a 43-million drop during November 1963 and the average decline of 24 million. Government-owned butter in storage on December 1 was 58 million pounds. A year earlier, government stocks were 203 million pounds. Holdings of American cheese on December 1 were 296 million pounds, 9 percent less than

a year earlier and 10 percent below average for the date. Stocks declined 7 million pounds during November, compared with a 13-million pound reduction during November last year. The average decline during the month is 18 million pounds.

#### Poultry and Poultry Products

Frozen poultry supplies on December 1 were 418 million pounds, 2 percent less a year earlier, but 7 percent more than average. Holdings of frozen poultry decreased 70 million pounds during November, compared with a decline of 63 million pounds during November 1963 and the average November reduction of 50 million pounds. Turkey stocks were 272 million pounds -- a decline of 70 million pounds during November. These holdings were 5 percent below a year earlier but 15 percent above average. Supplies of frozen eggs were 69 million pounds -- a drop of 15 million pounds from November 1. On December 1 last year, stocks were 68 million pounds, while the average for the date is 81 million pounds. Stocks of shell eggs were 101 thousand cases, a decrease of 59 thousand cases during November. December 1 a year ago, 111 thousand cases were on hand and the average for December 1 is 156 thousand.

#### Meat and Meat Products

Supplies of meat and meat products increased 103 million pounds during November and totaled 685 million on December 1. A year earlier stocks gained 82 million pounds and the average November increase is 60 million pounds. Holdings were 10 percent more than on December 1, 1963 and 52 percent above average. Beef holdings were 301 million pounds, a record for the date and a gain of 39 million during the month. A year earlier, stocks increased 31 million pounds and the average gain is 16 million pounds. Stocks of all pork were 13 percent above December 1 a year ago and 46 percent more than average. Frozen pork holdings increased 53 million pounds during November and were at 242 million pounds on December 1, a record for the date. Cooler pork stocks were 41 million pounds, a gain of 6 million. Supplies of frozen pork bellies on December 1 were 55 million pounds, compared with 34 million on November 1 and 38 million at this time last year.

#### Fruits, Vegetables, and Juices

December 1 stocks of fresh apples were 49 million bushels, the same as a year earlier but 5 million more than average. Of the total stored, 12 million bushels were in controlled atmosphere rooms. This time last year, 10 million bushels were in CA rooms. Frozen fruit supplies were down to 580 million pounds on December 1 as the result of a 29-million-pound reduction during November. A year earlier a net decline of 18 million pounds brought supplies down to 464 million pounds. The average November reduction is 18 million pounds and average December 1 holdings are 528 million pounds. Stocks of all major frozen fruit packs, except apples and miscellaneous frozen fruits, were reduced during the month. Reductions were principally in cherries, strawberries, peaches, and apricots. December 1 frozen vegetable holdings were 1,298 million pounds, compared with 1,336 million a year earlier and average stocks of 1,087 million. The November net withdrawal was 2 million pounds compared with 24 million in 1963 and the average of 14 million. December 1 supplies of frozen vegetables were larger than the previous month in all regions except the Middle Atlantic, West North Central, and Pacific. The french fry gain was significantly larger than a year earlier and average. An increase of 41 million pounds brought December 1 holdings to 194 million pounds, 5 million short of the record for the date set in 1962. Orange concentrate stocks declined 5 million gallons during November to 14 million gallons on December 1. Supplies were 5 million less than on December 1, 1963 and average. Holdings were down 24 percent from last month following significant reductions in stocks in the South Atlantic, Middle Atlantic, and New England warehouses.

American Cheddar cheese . . . . .	lb.	35,984	22,992	16,536	14,167
Pork . . . . .	lb.	2,632	1,580	1,910	1,683
Beef . . . . .	lb.	2,087	3,548	40,422	42,766

1/ Government holdings are included in the tables of total holdings elsewhere in the report and consist of reported stocks held by USDA, Armed Services, and other Government agencies. In addition to stocks reported above, Armed Services hold some stocks in space owned and operated by them on which figures are not available.  
2/ Based on actual reports. Estimates on late reports are not included. Current figures will be revised next month.  
3/ Does not include butter oil, ghee, and canned butter.
