COLD STORAGE REPORT, MAY 1, 1966

Commodity Summary

Stocks of meat in refrigerated warehouses on May 1 were 585 million pounds, according to the Crop Reporting Board. This is 13 percent less than a year earlier and 11 percent below the May 1 1960-64 average. Holdings of beef totaled 214 million pounds, 4 percent under a year earlier but 16 percent above average. Total pork stored amounted to 276 million pounds compared with 335 million at this time last year and 363 million, the average.

Poultry holdings were reduced 34 million pounds during April to 168 million on May 1. About 92 million pounds were frozen turkeys, 13 percent lower than on May 1, 1965 and 22 percent below average.

Shell egg stocks rose to 42 thousand cases after a 14-thousand case April gain. Frozen egg stocks moved up 9 million to 33 million pounds. Supplies of both shell and frozen eggs were below a year earlier and average.

May 1 holdings of frozen fruits were 356 million pounds compared with 351 million on May 1 a year ago and 294 million, the average. Frozen fruit moving from storage during April was 44 million pounds, 14 million less than during April 1965 and 9 million below average. Frozen vegetable stocks totaled 1,178 million pounds, a record for May 1. Almost two-fifths of the total were french fries which increased 6 million pounds during April to 468 million on May 1. Orange concentrate holdings were up 4 million gallons to 39 million, 17 million less than on May 1 last year, but about equal to the average.

Butter stocks moved up 10 million pounds to 35 million and a 21-million-pound gain in American cheese stocks raised holdings to 251 million pounds. Both dairy products were below both May 1, 1965 and average.

Storage Occupancy in Public Warehouses

May 1 utilization of public cooler space at 50 percent was 1 point lower than last month and 3 points lower than average. At this time a year ago, cooler occupancy was 53 percent. The most significant April decreases were in the Middle Atlantic and Pacific regions.

Freezer occupancy was 57 percent of capacity, also down 1 point from April 1. Occupancy a year ago was 60 percent and average is 66 percent. Only the East North Central, West South Central and Mountain regions had higher occupancy than at the beginning of April.

Cooler and Freezer Stock Changes

May 1 stocks in cooler rooms were 1.7 billion pounds following a 252-million-pound April decrease. Stocks of fresh fruits and vegetables decreased sharply during April which more than offset gains in other products. Total weight in cooler rooms was 8 percent below a year earlier but 5 percent above average.

Freezer stocks were up slightly after gains in stocks of cream, butter, eggs, juices, and meats. The total freezer weight of 3.2 billion pounds compared with 3.4 billion on May 1, 1965 and 3.2 billion, the average.

Poultry and Poultry Products

A 30-million-pound April decline in frozen turkey stocks brought holdings down to 92 million pounds on May 1. This is 13 percent less than on May 1, 1965 and 22 percent less than average. Holdings in all sections of the country decreased during the month, most sharply in the West North Central and West South Central States. Total poultry in storage was down to 168 million pounds compared with 215 million held at this time last year. Average May 1 stocks are 219 million pounds.

An April gain of 14 thousand cases brought the May 1 inventory of shell eggs to 42 thousand cases. A year earlier, 53 thousand cases were in storage and average holdings are 113 thousand.

Frozen eggs totaled 33 million pounds on May 1, up 9 million from a month earlier. These stocks were 41 percent smaller than on May 1, 1965 and 51 percent under average.

Dairy Products

May 1 stocks of creamery butter were 35 million pounds, the smallest for the date since 1952. Almost 3 million pounds of the butter stored was Government-owned. Last year at this time, stocks were 132 million pounds -- 83 million government-owned. Average total holdings for May 1 are 221 million pounds.

American cheese in refrigerated warehouses increased 21 million pounds during April to 251 million on May 1. Supplies were 21 million short of the May 1, 1965 stocks and 61 million less than average.

Meat Products

May 1 holdings of frozen beef were 198 million pounds, down 15 million from a month earlier, but supplies of cured beef moved up 1 million pounds during April to 17 million. Total beef in storage was 8 million pounds less than on May 1, 1965 but 29 million more than average. April gains in various frozen pork cuts totaled 58 million pounds and brought the May 1 inventory of total frozen pork to 244 million pounds. Advances were principally in stocks of hams, which moved up 18 million pounds to 47 million, and pork bellies, which rose 15 million to 64 million pounds. Frozen pork stocks, however, were still below both a year earlier and average.

Also increasing during April were stocks of cured pork, veal, lamb and mutton, and canned meats. Total meats in storage were 585 million pounds on May 1 compared with 675 million a year earlier and 660 million, the average for the date.

Fruits, Juices, and Vegetables

May 1 frozen fruit holdings totaled 356 million pounds, 44 million less than on April 1 but 62 million more than average. Stocks of all commodities were lower than a month earlier. The decline in strawberries during April was less than a half million pounds due to larger holdings in the West South Central region. The average decrease for strawberries during April is 17 million pounds.

Stocks of frozen orange concentrate of 390 million pounds were 10 percent more than on April 1 but 30 percent less than last year's record holdings of 559 million pounds. The gain of 35 million pounds during April compared with last year's gain of 148 million and the average rise of 39 million pounds.

Frozen vegetable holdings of 1,178 million pounds were 37 million less than on April 1. Stocks of all frozen vegetables were lower except asparagus, broccoli, french fries and spinach. The largest increase was in spinach, up 31 million pounds during April to 72 million.

Table 10. --End-of-month stocks of certain commodities in storage
owned by the Government 1/

Commodity	Unit	April 1960-64 average	April 1965	March 1966	April 1966 <u>2/</u>
		Thou.	Thou.	Thou.	Thou.
Butter, creamery <u>3/</u> . .	lb.	183,442	82,821	4,310	2,601
American Cheddar cheese	lb.	25,806	3,678	311	278
Pork	lb.	2,112	1,684	3,104	2,702
Beef	lb.	2,385	10,822	7,746	5,981

1/ Government holdings are included in the tables of total holdings elsewhere in the report and consist of reported stocks held by USDA, the Armed Services, and other Government agencies. In addition to stocks reported above, Armed Services hold some stocks in space owned by them on which figures are not available.

2/ Based on actual reports. Estimates on late reports are not included. Current figures will be revised next month.

3/ Does not include butter oil, ghee, and canned butter.
