

COLD STORAGE *Report*

VOL. LIII No. 9 Released September 16, 1968 at 2 P.M. (E.D.S.T.) September 1968

CONTENTS

	Page
Analysis of September 1, storage holdings and occupancy	2
Fresh fruits, vegetables, and nuts in storage	4
Dairy products and eggs in storage	4
Frozen poultry, fruits, vegetables and juices in storage	5
Meats and meat products in storage	6
Commodities stored in public general cold storage warehouses	7
Cold storage holdings, by geographic regions	8
Space and occupancy in public general warehouses in selected cities	10
Space and occupancy in public general refrigerated warehouses	11
United States refrigerated net piling space	12

**Report on Capacity of Refrigerated Warehouses in the United States
scheduled for release September 20, 1968 will not be
released until October 23, 1968**

[Data for this report are collected from public, private, and semiprivate warehouses, apple houses, and meat-packing plants where food products are generally stored for 30 days or more. Commodities in space owned or leased and operated by the armed services are not reported. All August 31, 1968 data are preliminary.]

COLD STORAGE REPORT SEPTEMBER 1, 1968

Changes During Past Month

Cold storage stocks of turkeys, beef and peas increased in August but stocks of butter, eggs, orange juice, pork, strawberries and french fries declined, according to the Crop Reporting Board.

Turkey holdings were up 75 million pounds and frozen beef stocks were up 27 million. Holdings of peas increased 57 million pounds.

Stocks of butter declined 15 million pounds and shell eggs were down 29 thousand cases. Orange juice stocks dropped 10 million gallons, strawberries were off 7 million pounds and french fries, 71 million pounds. All frozen pork items were down a total of 45 million pounds--bellies accounted for 33 million pounds of the decline.

Public Warehouse Occupancy

Cooler rooms were 61 percent occupied on September 1, one point above last month, the same as a year earlier and 3 points above average. Occupancy was above last month in the East South Central and Pacific regions but was lower in the New England, West North Central and South Atlantic regions. The other regions were unchanged.

Freezer room occupancy on September 1 was 69 percent, up 2 points from August 1, the same as average but 8 points below a year earlier. Utilization was lower than a month earlier in the mountain region but was above in all other regions.

Cooler and Freezer Stock Changes

Cooler-held stocks increased 186 million pounds in August totaling 1,633 million pounds. This is 4 percent above a year earlier. Some of the more significant increases from a month earlier were recorded for apples, pears, grapes, and other fresh fruits. Partly offsetting were decreases in nuts and nutmeats, and shell eggs.

Stocks in freezer rooms totaled 4,338 million pounds on September 1, up 185 million from August 1. Year earlier freezer stocks totaled 4,664 million pounds. Increases in turkeys, beef, corn, peas, cherries, peaches and other frozen fruits and vegetables helped to more than offset decreases in orange juice, french fries, pork and veal.

Meat Products

Stocks of meat totaled 521 million pounds, 27 million less than a month earlier, 7 million below a year earlier and 46 million above average. Pork holdings decreased 47 million pounds in August to 198 million. Frozen pork bellies at 27 million pounds decreased 55 percent, compared with a 45 percent decrease a year earlier. All other pork items shared in the decrease in pork holdings. Beef stocks totaled 242 million pounds, 28 million above a month earlier but 3 million less than a year earlier.

Poultry and Poultry Products

Frozen poultry stocks increased 77 million pounds in August to 410 million pounds. September 1 holdings were 16 percent below a year earlier but 57 percent above average. Turkey holdings were 301 million pounds compared with 226 million last month, 332 million a year earlier and 157 million, average. Whole turkeys totaled 268 million pounds. Parts, cut ups, and further processing items totaled 33 million.

Shell eggs declined 29 thousand cases from a month earlier to 233 thousand. September 1 stocks were 82 thousand cases below year-earlier holdings but 22 thousand above average. Frozen egg holdings were 108 million pounds, down 1 million from August 1. Year-earlier stocks totaled 99 million.

Dairy Products

Supplies of creamery butter in refrigerated storage totaled 226 million pounds, down 7 million from a year earlier, 15 million from a month earlier, and 39 million below average. Government-owned butter on September 1 totaled 188 million pounds, down 12 million from a month earlier.

American cheese holdings were 389 million pounds, 15 million below a year earlier but 4 million above average. Stocks were unchanged from a month earlier, compared with a 4-million pound increase a year earlier and an average decline of 1 million.

Fruits, Juices, and Vegetables

Stocks of orange concentrate were 38 million gallons, 10 million below a month earlier. Holdings were down 45 percent from a year earlier and 6 percent below average.

Frozen fruit totaled 568 million pounds, 77 million more than a month earlier and 19 million above a year earlier. The most significant increases in holdings were recorded for blueberries, cherries, and peaches. Increases were also recorded for blackberries, and both red and black raspberries.

Fresh apple holdings increased 3 million pounds in August to 12 million but were 2 million pounds below a year earlier.

Frozen vegetable stocks increased 169 million pounds to 1,545 million pounds. This was 8 percent above a year earlier and 35 percent above average. Holdings of frozen vegetables (excluding french fries) totaled 1,349 million, 22 percent above a month earlier. Year-earlier stocks totaled 1,206 million pounds.

Increases during August in inventories of beans, corn, and green peas more than offset lower stocks of other vegetable items. French fries totaled 195 million pounds, 71 million less than on August 1. Year-earlier stocks totaled 227 million pounds.
