

cold storage

October 31, 1973

Release:
November 16, 1973
3:00 P.M. ET

Cooler and Freezer Stocks

Cooler stocks on hand October 31 totaled 4,344 million pounds, 59 percent more than a month earlier and 13 percent more than a year earlier. The October gain was principally due to the inmovement of fresh apples in the major producing areas. Freezer-held stocks totaled 5,463 million pounds, 4 percent above last month but 1 percent below last year.

Meat Products

Total beef in storage on October 31 amounted to 282 million pounds, 15 percent more than last month but 14 percent less than last year. Supplies of pork--frozen and cured--were 12 percent above a month earlier with 222 million pounds stored on October 31. These stocks also were 6 percent more than last year. Stocks of frozen pork bellies were 15 million pounds, 66 percent more than on September 30 but 31 percent less than a year earlier.

Poultry and Eggs

A 24 percent gain in frozen poultry stocks during the month brought October 31 holdings up to 578 million pounds. At this time last year 590 million pounds were in storage. Stocks of frozen turkeys advanced seasonally and totaled 456 million pounds. This was 29 percent more than the previous month but 4 percent less than a year earlier.

Frozen egg holdings were 55 million pounds on October 31, about 7 percent more than a month earlier but 31 percent less than last year.

Dairy Products

The October decline in butter stocks left 68 million pounds by the end of the month. These stocks were 28 percent below September and 56 percent below a year earlier. American cheese holdings were down 5 percent from a month earlier to 295 million pounds which was 6 percent less than last year.

Fruit and Vegetables

The net-into storage movement of fresh apples raised stocks to 2,893 million pounds--more than double the holdings of a month earlier and 19 percent more than a year ago. Fresh pears were down to 222 million pounds--33 percent under a month earlier but 21 percent more than at this time last year.

Frozen fruits were 537 million pounds on October 31, 4 percent above the previous month but 3 percent below last year. There was a decline in stocks of most frozen fruit but it was more than offset by increases in stocks of apples, grapes, black raspberries, and other frozen fruits.

Seasonal increases in stocks of most frozen vegetable items raised total holdings to 1,493 million pounds--6 percent more than the previous month but one percent less than a year earlier.

Frozen potatoes amounted to 404 million pounds--up 30 percent from last month, but 32 percent under last year. French fries totaled 332 million pounds, up 33 percent from a month earlier but down 34 percent from last year.

A decline in frozen orange concentrate stocks brought total stocks down to 76 million gallons, 16 percent less than a month earlier but 49 percent more than a year earlier.

Public Warehouse Stocks and Occupancy

Stocks in public warehouses totaled 4,387 million pounds on October 31. This was 45 percent of the total weight in all refrigerated warehouses. Public cooler rooms held 820 million pounds and public freezer space had 3,567 million pounds.

Occupancy of public cooler space was 54 percent on October 31. This compares with 50 percent a month earlier and 59 percent at this time last year.

Utilization of public freezer space was 68 percent. Last month it was 66 percent and last year it was 72 percent.
