Stocks as of
July 31, 1974

Release:
August 19, 1974
3:00 P.M. ET

Cooler and Freezer Stocks

Stocks in cooler rooms totaled 1,562 million pounds on July 31, down 7 percent from a month earlier but 26 percent higher than last year. Declines in stocks of fresh fruits, vegetables and nuts were largely responsible for the reduction in cooler weight. Total freezer stocks were 5,802 million pounds, down 2 percent from a month earlier but 22 percent larger than at this time last year. The reduction in freezer stocks was accounted for by seasonal declines in frozen meats, juices and frozen potatoes which more than offset gains in poultry, fruits, and vegetables.

Meat Products

Beef stocks totaled 400 million pounds, down 9 percent from a month earlier but 34 percent higher than last year. Total pork in storage on July 31 was 289 million pounds, an 18-percent reduction from the previous month. However, these supplies were 44 percent larger than last year. Supplies of all meat totaled 799 million pounds, down 13 percent from last month but 36 percent above a year earlier.

Poultry and Eggs

The 183 million pounds of frozen chicken in storage on July 31 were up 2 percent from a month earlier and more than double the stocks of last year. Supplies of turkeys were 331 million pounds at the end of July, 25 percent more than the previous month and 66 percent larger than at this time last year.

Shell egg stocks moved up to 109 thousand cases, a gain of 22 percent over a month earlier and more than double the stocks of last year. Holdings of frozen eggs were 57 million pounds, 4 percent higher than the month before and 20 percent more than last year.

Dairy Products

Butter holdings increased during July to 132 million pounds by the end of the month. Stocks were 11 percent above a month earlier but 8 percent below a year ago. American cheese stocks moved up to 494 million pounds, a 1-percent gain over the previous month and 54 percent above last year.

Fruit and Vegetables

Seasonal gains in most of the frozen fruit packs raised July 31 stocks to 558 million pounds. This was 21 percent more than the previous month and 13 percent more than last year.

Frozen orange concentrate stocks declined to 127 million gallons, a 6-percent drop from a month earlier. Stocks, however, were 10 percent larger than last year.

Frozen vegetable stocks advanced 10 percent during July to total 1,065 million pounds at the end of the month. These stocks were 24 percent above a year earlier.

Frozen potato products dropped sharply during July. A 32-percent decline left 369 million pounds in storage, 17 percent more than last year.

Public Warehouse Stocks and Occupancy

Public warehouses held 4,743 million pounds on July 31, accounting for 64 percent of the total refrigerated stocks. Public warehouses held 994 million pounds of cooler stocks and 3,748 million pounds of freezer stocks.

Public cooler occupancy was 65 percent on July 31 compared with 64 percent a month earlier and 54 percent a year earlier.

Freezer occupancy was 68 percent, down from 69 percent a month earlier. Last year at this time freezer occupancy was 61 percent.

XXXXXXXXXXXXXXXXXXXX

Data for this report are collected from refrigerated storages, public or private, where food products are normally stored for 30 days or more. Stocks in space owned or leased by the Armed Forces are not reported. Food stocks held under bond are included in the storage data.
