Data for this report are collected from public and private refrigerated warehouses where food products are normally stored for 30 days or more. Stocks in space owned or leased by the Armed Forces are not reported. Food stocks held under bond are included in the storage data.

Cold storage stocks of turkeys began their seasonal climb in May slightly ahead of the previous year, but by August were 10 percent below a year earlier. The 334 million pounds in storage is the third highest August holding on record, exceeded only by 1974 and 1976.
