

Cold Storage

**National
Agricultural
Statistics
Service**

**United States
Department of
Agriculture**

Washington, D.C.

Released October 22, 1991, by the Agricultural Statistics Board. Estimates refer to September 30, 1991.

Frozen Green Bean Stocks at Record High

Frozen food stocks in refrigerated warehouses on September 30, 1991 were greater than the year earlier levels for butter, meat, potatoes, poultry, concentrated juices, and vegetables. Cooler items with stocks above those of the previous year included fresh vegetables, peanuts, and natural cheese.

Total red meat supplies in freezers increased 3 percent from last month and were 17 percent more than those on hand September 1990. Frozen pork stocks were the same as last month but were 25 percent above the previous year. Stocks of pork bellies were down 46 percent from last month but were over three times last year's level.

Total frozen poultry supplies increased 5 percent from August and were 14 percent above last year. Total stocks of chicken advanced 4 percent during the month and were 37 percent above 1990. Total pounds of turkey in freezers were up 5 percent from both last month and last year.

Public cooler occupancy was at 50 percent of capacity, 1 point below 1990. Public freezer occupancy at 76 percent was 4 points above last month and 2 points above last year.

Special Notice - Apple Stocks Revisions

Refer to page 16 for revised Cold Storage Apple Stocks for September 1989 to July 1991.

For additional information, call John Lange (202) 382-9185. Office hours are 8:00 a.m. to 4:30 p.m. ET.

Apple stocks in cold storage include those held for thirty days or more to be used for fresh market or processing. Some processing apple stocks in Washington were omitted from the previously printed stocks figures. Stocks for the last two marketing years have been revised and are comparable to figures that will be published for the current marketing year. They are not comparable to stocks prior to the 1989 marketing year.

Survey procedures: Questionnaires are mailed about the 24th of each month to all operators on our list of approximately 1650 public and private cold storage warehouses. In addition, apple data is obtained from special surveys and other sources (State Departments of Agriculture, American Apple Institute, etc.). All survey data represent stocks as of the end of the month.

Data are collected from warehouses artificially cooled to a temperature of 50 degrees Fahrenheit or lower, and whose food products are normally stored for 30 days or more. All food items in these facilities are reported regardless of the number of days stored at the time of the report. Also included are specialized storage facilities meeting the 30 day requirement, such as fruit houses, dairy manufacturing plants, frozen fruit, fruit juice, and vegetable processors, and poultry and meat packing plants. Excluded are stocks in space maintained by wholesalers, jobbers, distributors, chain stores, locker plants containing individual lockers, meat packer branch houses, and frozen food processors whose entire inventories are turned over more than once a month.

Estimating procedures: Data for reporting firms are added to estimates for non-reporting firms to obtain regional and National totals. Estimates for non-reporting firms are set by multiplying the previous month's figure by a percent change from the previous month. The percent change is calculated for each item from totals of the current and previous month summed from firms that reported both months.

Revision policy: Data is revised the following month based on late reports or corrected data. Final figures are published in the annual summary in February of the following year.

Reliability: Reports are received from 900 firms each month which represent about 70 percent of the total capacity. Firms that are not on the list or firms who have never reported are not represented in the data. Monthly data can vary due to different firms reporting month to month. Survey data are also subject to non-sampling errors such as omissions and mistakes in reporting and in processing the data. While these errors cannot be measured directly, they are minimized by carefully reviewing all reported data for consistency and reasonableness.

The next "Cold Storage" report will be released at 3:00 p.m. ET on November 22, 1991.

Want to subscribe? **Time to renew?**

Subscribe to **Cold Storage** today! If you already subscribe to this timely periodical, note that your subscription expires in the month and year shown on the top line of your mailing label. The expiration date will appear in one of two formats: APR93 (for April 1993) or 930430 (for April 30, 1993). Disregard this notice if no renewal date appears. Call 1-800-999-6779, and tell us whether you want to subscribe or renew, or return this form to: **ERS-NASS, P.O. Box 1608, Rockville, MD 20849-1608.**
