

Cold Storage

**United States
Department of
Agriculture**

Washington, D.C.

Released September 22, 1995, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on "Cold Storage" call John Lange at (202) 720-0585, office hours 8:00 a.m. to 4:30 p.m. ET. For assistance with general agricultural statistics, information about NASS, its products or services, contact the NASS Information Hotline at 1-800-727-9540 or E-mail: NASS@AG.GOV. The index is located on page 16.

Frozen food stocks in refrigerated warehouses on August 31, 1995, were greater than year earlier levels for poultry, vegetables, and fruit. Cooler stocks of peanuts were higher than a year earlier.

Total red meat supplies in freezers decreased 7 percent from July and were down 4 percent from August 1994. Frozen pork stocks decreased 11 percent from last month and were down marginally from last year. Stocks of pork bellies were down 63 percent from last month and down 43 percent from last year.

Total frozen poultry supplies decreased 1 percent from last month, but were 12 percent above last year. Total stocks of chicken decreased 4 percent during the month, but were 16 percent above 1994. Total pounds of turkey in freezers were up 1 percent from last month and up 9 percent from last year.

Public cooler occupancy was at 48 percent of capacity, 8 points below a year ago. Public freezer occupancy at 66 percent was up 2 points from last month, but down 1 point from last year.

Frozen Strawberries

COLD STORAGE REGIONS

Survey Procedures: Questionnaires are mailed about the 24th of each month to all operators on the list of approximately 1,650 public and private cold storage warehouses. In addition, apple data are obtained from special surveys and other sources (State Departments of Agriculture, American Apple Institute, etc.). All survey data represent stocks as of the end of the month.

Data are collected from warehouses artificially cooled to a temperature of 50 degrees Fahrenheit or lower, and whose food products are normally stored for 30 days or more. All food items in these facilities are reported regardless of the number of days stored at the time of the report. Also included are specialized storage facilities meeting the 30 day requirement, such as fruit houses, dairy manufacturing plants, frozen fruit, fruit juice, and vegetable processors, and poultry and meat packing plants. Excluded are stocks in space maintained by wholesalers, jobbers, distributors, chain stores, locker plants containing individual lockers, meat packer branch houses, and frozen food processors whose entire inventories are turned over more than once a month.

Estimating Procedures: Data for reporting firms are added to estimates for non-reporting firms to obtain regional and National totals. Estimates for non-reporting firms are obtained by multiplying the previous month's figure by a percent change from the previous month. The percent change is calculated for each item from totals of the current and previous month summed from firms that reported both months.

Revision Policy: Data are revised the following month based on late reports or corrected data. Final figures are published in the annual summary in February of the following year.

Reliability: Reports are received from 900 firms each month which represent about 70 percent of the total capacity. Firms that are not on the list or firms who have never reported are not represented in the data. Monthly data can vary due to different firms reporting month to month. Survey data are also subject to non-sampling errors such as omissions and mistakes in reporting and in processing the data. While these errors cannot be measured directly, they are minimized by carefully reviewing all reported data for consistency and reasonableness.
