SUMMARY OF REGIONAL COLD STORAGE HOLDINGS, 1963

Introduction

This is the sixteenth in a series of annual summaries of regional cold storage holdings. The series began in 1946 but none was issued in 1951. End-of-month stocks during 1963 for various commodities are listed in this publication according to their geographic distribution. These data are the revised holdings for the calendar year and provide a reference for those interested in national holdings of foodstocks reported each month in the Cold Storage Reports.

Data for the monthly storage reports are collected from public, private, and semiprivate warehouses which include specialized warehouses facilities such as fruit houses, dairy manufacturing plants, frozen fruit, juice and vegetable processors, poultry, and meat packing plants.

Food holdings in refrigerated space owned, leased, or operated by the Armed Services are not reported.
