2010 Cranberry Production Up 6 Percent

The forecast for the 2010 cranberry crop is 7.35 million barrels, up 6 percent from 2009. If realized, this will be the second largest production on record. Production forecasts are up from last year in Massachusetts and Wisconsin but down in New Jersey, Oregon, and Washington.

Production in Wisconsin is forecast at 4.35 million barrels, up 10 percent from 2009. If realized, this will be the second largest production level on record for Wisconsin. Much of the crop has progressed ahead of normal this season. Minimal winter damage was reported. An early spring and warm, humid days have kept the crop in good condition.

The Massachusetts cranberry forecast is 1.95 million barrels, up 7 percent from 2009. Above average temperatures during June and the first half of July aided pollination. However, some growers indicated that above average temperatures combined with lack of moisture have reduced the potential of this year’s crop.

New Jersey expects a crop of 530,000 barrels, down 5 percent from 2009. Some growers expressed concerns of potential sun scalding of fruit due to above normal temperatures. However, the crop was generally in good condition with no unusual problems reported.

The Oregon cranberry forecast is 385,000 barrels, down 10 percent from last year. Freezing temperatures damaged buds in December, followed by a cold and wet spring that delayed the crop.

The Washington crop is forecast at 135,000 barrels, 16 percent below last year. The crop has experienced very poor growing conditions. A wet, cold spring resulted in poor pollination and small berry size.

Statistical Methodology

Survey procedures: Grower surveys are conducted in preparation for this report. Producers are contacted to obtain expected production and their assessment of the current crop relative to a full crop. Telephone follow-up of mail survey non-respondents is used to ensure adequate coverage.

Estimating procedures: Information obtained from the cranberry grower survey along with federal administrative data is used to establish forecasts of total production. These forecasts are reviewed for errors, reasonableness, and consistency with historical estimates.

Revision policy: Cranberry production forecasts will not be revised. End-of-season estimates of production are made following harvest and are subject to revision the following year based on a thorough review of all available data.

Reliability: Survey indications are subject to sampling variability because all operations growing cranberries are not included in the sample. Survey results are also subject to non-sampling errors such as omission, duplication, imputation for missing data, and mistakes in reporting, recording, and processing the data. These errors cannot be measured directly, but they are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@nass.usda.gov

Lance Honig, Chief, Crops Branch ................................................................. (202) 720-2127

Jorge Garcia-Pratts, Head, Fruits, Vegetables and Special Crops Section ............................................................... (202) 720-2127
Debbie Flippin – Fresh and Processing Vegetables, Onions, Strawberries ............................................................... (202) 720-2157
Fred Granja – Apples, Apricots, Cherries, Plums, Prunes, Tobacco ............................................................... (202) 720-4288
Dawn Keen – Floriculture, Maple Syrup, Nursery, Tree Nuts ............................................................... (202) 720-4215
Steve Maliszewski – Citrus, Coffee, Grapes, Tropical Fruits ............................................................... (202) 720-5412
Tierra Mobley – Berries, Cranberries, Potatoes, Sweet Potatoes ............................................................... (202) 720-4285
Dan Norris – Austrian Winter Peas, Dry Edible Peas, Lentils, Mints,
Mushrooms, Peaches, Pears, Wrinkled Seed Peas, Dry Beans ............................................................... (202) 720-3250
Kim Ritchie – Hops........................................................................ (360) 902-1940
Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: http://www.nass.usda.gov

- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit http://www.nass.usda.gov and in the “Receive NASS Updates” box under “Receive reports by Email,” click on “National” or “State” to select the reports you would like to receive.

- Printed reports may be purchased from the National Technical Information Service (NTIS) by calling toll-free (800) 999-6779, or (703) 605-6220 if calling from outside the United States or Canada. Accepted methods of payment are Visa, MasterCard, check, or money order.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
