EGG PRODUCTS - Liquid, Frozen, Solids
Production September 1958

October 24, 1958

Liquid egg production during September totaled 15,181,000 pounds, down 1 percent from September 1957 but up 46 percent from the 1952-56 average for the month. The quantities used for immediate consumption and drying were smaller than a year earlier. The quantity for freezing was larger.

Egg solids production during September totaled 1,137,000 pounds, compared with 1,350,000 pounds in September 1957 and the 1952-56 average of 1,212,000 pounds. Production consisted of 231,000 pounds of whole egg solids, 359,000 pounds of albumen solids and 547,000 pounds of yolk solids. Production in September 1957 consisted of 442,000 pounds of whole egg solids, 496,000 pounds of albumen solids and 412,000 pounds of yolk solids.

Frozen egg production during September totaled 9,967,000 pounds, up 2 percent from September 1957 and up 37 percent from the 1952-56 average of 7,284,000 pounds. Frozen egg stocks decreased 16 million pounds during September, compared with 17 million pounds in September 1957 and the 1952-56 average decrease of 21 million pounds.
