## FEED GRAIN AND WHEAT STOCKS ABOVE YEAR EARLIER

Stocks of the four feed grains (corn, oats, barley and sorghum) totaled 27 million metric tons, almost 2 percent more than the stocks on hand October 1, 1975. Increases from a year earlier by commodity were 11 percent for corn, 2 percent for barley and 51 percent for sorghum. Oats stocks declined 13 percent from a year earlier.

Stocks of all wheat were up 14 percent from a year earlier while durum stocks jumped 33 percent. Rye stocks were 2 percent below October 1, 1975, and flaxseed stocks were down 34 percent.

Old Crop Corn stored in all positions on October 1 totaled 399 million bushels, 11 percent more than a year earlier. Corn stored on farms, at 230 million bushels, was up 20 percent from last year. Stocks in off-farm facilities were up 1 percent from a year earlier. Disappearance from all positions during June-September 1976 totaled 1,454 million bushels of old crop corn, compared with 1,133 million bushels during the same 4-month period last year.

Old Crop Sorghum grain stocks totaled 53 million bushels on October 1, 1976, up 51 percent from last year's low 35 million bushels. Farm stocks at 14 million bushels were up 76 percent from last year's 8 million bushels. Off-farm stocks at 39 million bushels exceeded by 43 percent the 27 million bushels last year. Disappearance during June-September was 101 million bushels, 5 percent more than during the same 4-month period a year earlier.

Oats in storage October 1, 1976 totaled nearly 543 million bushels, 13 percent less than a year earlier and the lowest for the date since records were started in 1943. Farms stocks at 430 million bushels were 13 percent below a year earlier, and off-farm stocks at 112 million bushels were down 14 percent. Disappearance during June-September was 229 million bushels, compared with 254 million bushels in the same 4-month period last year.

Barley stored in all positions on October 1 totaled 351 million bushels, 2 percent above a year earlier. Farm stocks at 198 million bushels were down 8 percent, while off-farm stocks were up 20 percent from a year ago. Disappearance during June-September was 132 million bushels, compared with 133 million bushels during the same 4-month period a year ago.

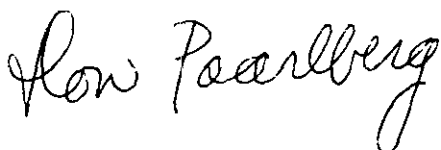

All wheat in storage totaled 2,163 million bushels, 14 percent more than last year and 38 percent greater than October 1, 1974. Off-farm stocks amounted to 1,331 million bushels, 18 percent more than last year. Storage on farms totaled 832 million bushels, an increase of 9 percent over last year. Disappearance of wheat from all positions during the June-September period was 628 million bushels compared with 673 million bushels during the comparable period last year.

Durum wheat stocks in all positions totaled 152 million bushels, 33 percent greater than last year and 66 percent more than on October 1, 1974. Farm storage of 113 million bushels was up 30 percent from the previous year. Off-farm holdings at 39 million bushels were 42 percent above last year. Disappearance during the June-September period amounted to 37 million bushels.

Rye stocks in all positions on October 1 totaled 15.4 million bushels, 2 percent less than last year and 26 percent lower than 1974. Farm stocks amounted to 9.4 million bushels or 7 percent below last year while off-farm stocks, at nearly 6.1 million bushels, were 7 percent larger than a year ago. Indicated disappearance during June-September was 6.5 million bushels, compared with 8.8 million bushels during the same period a year ago.

Flaxseed stocks in all positions on October 1, 1976 totaled 8.77 million bushels, down 34 percent from the same date a year ago. Farm stocks at 3.54 million bushels were 50 percent below October 1 last year and off-farm stocks at 5.23 million bushels were down 16 percent. June-September indicated disappearance at 2.98 million bushels is 30 percent below the disappearance for the same period a year ago.

A P P R O V E D:

ACTING SECRETARY OF AGRICULTURE
