WHEAT STOCKS DOWN

FEED GRAINS CONTINUE TO CLIMB

On October 1, 1978, wheat stocks totaled 57.4 million metric tons, 12 percent less than last year's record high 65.3 million MT. Stocks of the four feed grains amounted to 51.5 million MT, 19 percent above a year ago. Individual crop comparisons show corn up 20 percent, sorghum up 109 percent, oats down 3 percent, and barley up 15 percent.

OLD CROP CORN stored in all positions on October 1 totaled 1.06 billion bushels (27.0 million metric tons), up 20 percent from last year and the highest since October 1, 1972. Of the total old crop corn, 58 percent was stored on farms. Disappearance June through September was 1.74 billion bushels (44.1 million MT), up 17 percent from the comparable period last year.

Farm grain stocks are based on responses from approximately 23,000 producers who report total stocks on their farms. Off-farm stocks are based on reports from grain storage facilities that account for about 84 percent of the total off-farm storage capacity.

SORGHUM GRAIN in all storage positions on October 1, 1978 totaled 191 million bushels (4.85 million metric tons), 109 percent more than a year earlier and 271 percent more than for the same date in 1976. Farm stocks totaled over 56.4 million bushels (1.43 million MT) and off-farm holdings were 134 million bushels (3.42 million MT), up 161 and 93 percent, respectively, from October 1, 1977. Disappearance from all storage positions during June through September is indicated at 129 million bushels (3.27 million MT), 23 percent more than the disappearance during the same period in 1977.

OATS in storage October 1 totaled 658 million bushels (9.54 million metric tons), 3 percent below last year's October 1 stocks. Farm stocks at 543 million bushels (7.88 million MT) were 3 percent below a year earlier and off-farm stocks at 115 million bushels (1.67 million MT) were 1 percent below a year ago. Usage during June-September was 248 million bushels (3.60 million MT), up 4 percent from last year.

BARLEY stocks totaled 465 million bushels (10.1 million metric tons) on October 1, 15 percent above a year earlier. Farm stocks accounted for nearly 334 million bushels (7.27 million MT) and off-farm stocks about 131 million bushels (2.85 million MT). Disappearance during June-September was 145 million bushels (3.16 million MT), up 5 percent from the comparable period last year.

ALL WHEAT stocks on October 1 amounted to 2.11 billion bushels (57.4 million metric tons), 12 percent less than last year's record high 2.40 billion bushels (65.3 million MT). Farm storages held 1.01 billion bushels (27.4 million MT) of wheat, or 48 percent of the total. Farm stocks were down 3 percent from the record high of last year. Disappearance during June-September totaled 843 million bushels (22.9 million MT), 14 percent more than the same period last year. DURUM WHEAT stocks totaled 143 million bushels (3.89 million MT), 2 percent more than last year's 140 million bushels (3.80 million MT). Farm stocks at 113 million bushels (3.07 million MT) accounted for 79 percent of the total. Disappearance of durum wheat during the June through September period totaled 49.7 million bushels (1.35 million MT), compared with 31.9 million bushels (869 thousand MT) during the same period of 1977.

RYE stocks in all positions on October 1 totaled 25.2 million bushels (640 thousand metric tons), 74 percent larger than last year's stocks of 14.5 million bushels (367 thousand MT), and the highest October 1 level since 1973. Farm stocks amounted to 18.4 million bushels (468 thousand MT). June-September disappearance totaled 7.33 million bushels (186 thousand MT) compared with 6.95 million bushels (177 thousand MT) during the same period a year ago.

FLAXSEED stocks in all positions on October 1, 1978 totaled 10.3 million bushels (262 thousand metric tons), down 28 percent from the same date a year ago. Farm stocks at 6.95 million bushels (176 thousand MT) were 31 percent below last year and off-farm stocks at 3.36 million bushels (85.2 thousand MT) were down 22 percent from last year. June through September indicated disappearance at 7.34 million bushels (186 thousand MT) is 54 percent more than the disappearance for the same period a year ago.
