

hogs and pigs

JUNE 1972 (U. S. and 10 Corn Belt States)

Release:
June 23, 1972
3:00 P.M. EDT

In this issue:

- * June 1 Inventory
- * Sows Farrowing
- * Pig Crop

Hogs and pigs on farms in the United States on June 1, 1972 are estimated at 61.6 million head, 7 percent less than a year earlier, according to the Crop Reporting Board. Hogs and pigs kept for breeding are estimated at 9.3 million head, down 6 percent from a year ago. Market hogs and pigs, at 52.3 million, are down 7 percent.

The December-May 1972 pig crop is estimated at 48.3 million head, 8 percent less than during the same period in 1971. A total of 6.6 million sows farrowed during this period, 9 percent less than a year earlier. Pigs per litter averaged 7.33, compared with 7.19 last year.

Hog producers intend to farrow 6.0 million sows during June-November this year, 5 percent less than last year. If intentions are realized and projected pigs per litter are reached, the pig crop will be 44.1 million head, down 4 percent from 1971.

The following change in hog and pig estimates announced October 1971 is effective with this report. Individual State estimates in the June report have been discontinued for 27 minor hog States. Combined estimates for the 27 States, individual estimates for 23 major States and estimates for the U. S. are provided.

HOGS AND PIGS ON FARMS DOWN 7 PERCENT

The number of hogs and pigs on U. S. farms June 1 is estimated at 61,556,000 head, down 7 percent from June 1, 1971. Breeding hogs totaled 9,252,000 head, a decrease of 6 percent from a year ago. Hogs and pigs for market totaled 52,304,000, down 7 percent from a year earlier.

By weight groups, market hogs and pigs on June 1, 1972 and the decrease from a year earlier are: Less than 60 pounds--24,961,000 head, down 1,565,000; 60-119 pounds--12,881,000 head, down 988,000; 120-179 pounds--8,175,000 head, down 600,000; 180-219 pounds--4,837,000 head, down 443,000; and 220 pounds and over--1,450,000 head, down 190,000.

In the 10 Corn Belt States--Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas--the June 1 number of hogs and pigs is estimated at 46,057,000 head, 5 percent less than a year earlier. The 10 States accounted for 75 percent of the Nation's total inventory of hogs and pigs. Iowa, with the largest share at 24 percent, had a 4-percent decrease in inventory numbers. Second-ranking Illinois and third-ranking Indiana were the only States to show an increase in inventory from last year.

Market hogs and pigs in the 10 States totaled 39,273,000 head, down 5 percent from last year. Breeding hogs totaled 6,784,000 head, a decrease of 4 percent from last year.

DECEMBER-MAY PIG CROP DOWN 8 PERCENT

The December-May U. S. pig crop totaled 48,278,000 head, 8 percent below a year ago.

Sows farrowed during the December-May 1972 period numbered 6,585,000 head, 9 percent below a year earlier. Average litter size was 7.33, compared with 7.19 for December-May 1971.

In the 10 quarterly States the December 1971 to February 1972 pig crop was 13,297,000, down 6 percent from the previous year. During this quarter sows farrowed numbered 1,822,000, a decrease of 10 percent.

The 1972 March-May pig crop in the 10 quarterly States was 22,504,000 head, 7 percent below a year ago. Sows farrowed during this quarter totaled 3,083,000, a drop of 7 percent from a year ago.

JUNE-NOVEMBER INTENTIONS 5 PERCENT BELOW 1971

The expected number of sows to farrow in the United States during the June-November period is 6,005,000, 5 percent below the same period in 1971.

Based on an average litter rate with an allowance for trend, the potential pig crop would be 44,137,000 head, or 4 percent below the 1971 fall pig crop.

The expected farrowings in the 10 quarterly States during June-August 1972, at 2,230,000, is 4 percent below 1971. Intentions are down in all States except Illinois and Kansas.

The September-November expected farrowings for the 10 quarterly States, at 2,368,000, is 2 percent below the same quarter last year. Seven of the 10 States showed declines in expected farrowings ranging from 2,000 to 34,000. Indiana and Kansas both expect increases of 5,000 head and intentions in Illinois are up 35,000.
