DECEMBER 1 INVENTORY

Inventory of hogs and pigs on December 1, 1975 in the U.S. is estimated at 49.6 million head, 10 percent less than a year earlier and 19 percent below December 1, 1973, according to the Crop Reporting Board.

- Number kept for breeding, at 7.6 million, is 3 percent more than a year ago, but 12 percent below two years ago.
- Market hogs and pigs, at 42.0 million, are down 12 percent from December 1, 1974 and 20 percent less than December 1, 1973.
- By weight groups, market hogs and pigs on December 1, 1975 and the comparison with 1974 and 1973 are, respectively:

Less than 60 pounds--16.3 million, down 8 percent and 20 percent.
60-119 pounds--11.1 million, down 12 percent and 19 percent.
120-179 pounds--8.1 million, down 17 percent and 21 percent.
180-219 pounds--4.9 million, down 16 percent and 21 percent.
220 pounds and over--1.5 million, down 8 percent and 17 percent.

The 14 Quarterly States had 41.9 million head, down 11 percent from a year earlier and down 21 percent from two years ago. These States account for 84 percent of the United States all hogs and pigs inventory.

1975 PIG CROP

The U.S. pig crop from December 1974 through November 1975 was 71.3 million head, 15 percent below a year ago and 19 percent less than the 1973 pig crop.

- December 1974-May 1975 pig crop at 35.5 million was down 21 percent from a year earlier.
- June-November 1975 pig crop at 35.8 million was 8 percent lower than the same period in 1974.

The 5.0 million sows farrowed during June-November 1975 was 9 percent below the same period a year earlier. Average litter size during this period was 7.21 pigs, compared with 7.11 in June-November 1974.

The pig crop in the 14 Quarterly States for June-August 1975 was 15.0 million, down 12 percent from a year earlier. For September-November 1975, the crop was 15.2 million, down 6 percent.

FARROWING INTENTIONS

Hog producers in the U.S. intend to farrow 5.4 million sows during December 1975-May 1976, an increase of 8 percent from December 1974-May 1975 but 16 percent less than the same six month period two years earlier.

These intentions and a projected litter size indicate a pig crop of 38.0 million, 7 percent more than a year earlier but 16 percent less than December 1973-May 1974. If these intentions and litter rate are realized, the expected increase would be the first since 1971 for this 6 month period.

Intentions in the 14 Quarterly States are for 2.0 million sows to farrow during the 3 month period December 1975-February 1976, up 10 percent. March through May 1976 intentions in these States, at 2.5 million are 5 percent above the same period in 1975.

A P P R O V E D:

Richard E. Bell
