INVENTORY UP 9 PERCENT

Inventory of hogs and pigs on June 1, 1976 in the U.S. is estimated at 52.6 million head, 9 percent above last year but 11 percent less than June 1, 1974, according to the Crop Reporting Board. This is the second lowest June 1, total since 1965. The breeding herd is up 11 percent from last year and continues its upward trend that started last December. Because of the larger pig crop produced in the past six months, the market hog inventory increased 9 percent from a year earlier.

--Number kept for breeding at 8.2 million is up 11 percent from 1975, but down 7 percent from 1974.

--Number for market at 44.4 million is up 9 percent from last year but off 12 percent from 2 years ago.

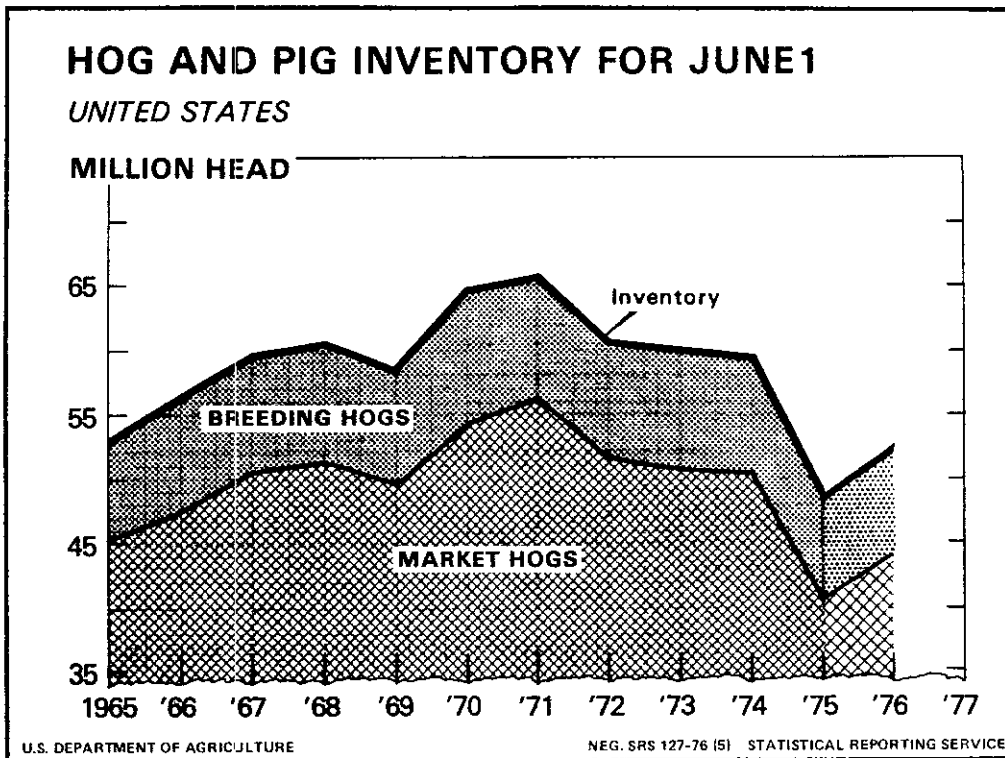

In the 14 Quarterly States accounting for 85 percent of the U.S. inventory, all hogs and pigs are set at 44.9 million head as of June 1, 1976. This is 10 percent above the low number on hand a year ago but 12 percent below June 1, 1974.

PIG CROP (DECEMBER 1975 - MAY 1976)

The December 1975 - May 1976 pig crop in the U.S. totaled 41.4 million, 16 percent above last year's small pig crop but 8 percent less than two years ago. This crop is the second smallest since 1937.

A total of 5.7 million sows farrowed during this period -- 14 percent more than a year earlier. Litter size was the highest since 1972 averaging 7.27 pigs during the past six months compared with 7.15 the previous year.

The pig crop in the 14 Quarterly States for December 1975 - May 1976 is set at 35.3 million, up 18 percent for the same period last year. The December 1975 - February 1976 quarter amounted to 14.6 million, up 16 percent. For March - May 1976, the crop totaled 20.7 million, up 19 percent.

FARROWING INTENTIONS

Hog producers in the U. S. intend to farrow 5.8 million sows during June - November 1976. This is an increase of 17 percent from the corresponding period in 1975 and 6 percent above the same six month period in 1974.

These intentions, along with projections of litter size, indicate a pig crop of 42.1 million. If these intentions are realized the pig crop would be 18 percent more than the June - November crop of a year ago and 8 percent more than 1974 and about equal to 1973.

Intentions in the 14 Quarterly States are to farrow 4.9 million sows during the next six months, up 17 percent. An increase of 16 percent is indicated for the June - August quarter and 19 percent for the September - November period.
