

# Hogs and Pigs

USDA  
Washington, D.C.

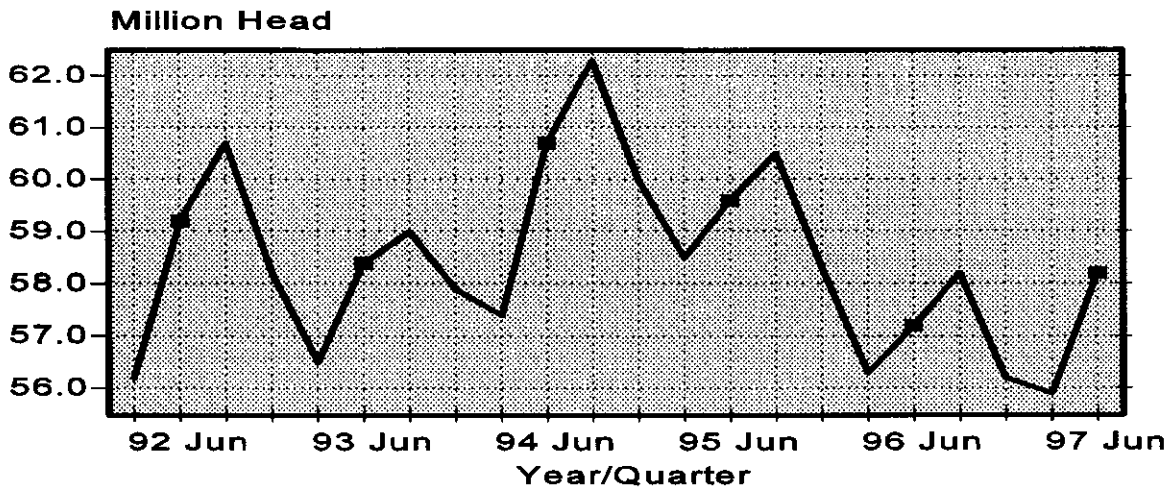

Released June 27, 1997, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on "Hogs and Pigs" call Mike Pallesen at (202) 720-3106, office hours 7:30 a.m. to 4:00 p.m. ET.

## U.S. Hog Inventory Up 2 Percent

**U.S. inventory** of all hogs and pigs on June 1, 1997, was 58.2 million head. This was 2 percent above June 1996 and 4 percent above the March 1, 1997 inventory.

**Breeding inventory**, at 6.95 million head is up 1 percent from June 1, 1996 and up 2 percent from March 1, 1997. **Market hog inventory**, at 51.2 million head was 2 percent above last year and 4 percent above last quarter.

## Quarterly Hogs and Pigs Inventory United States

**The March-May 1997 U.S. pig crop** at 25.5 million head was 2 percent more than 1996 but 3 percent less than 1995. Sows farrowing during this period totaled 2.95 million head, slightly below last year. Litter rate increases continue at a record level, with an average of 8.65 pigs saved per litter for the March-May period. Last year the litter rate averaged 8.47 pigs per litter. Pigs saved per litter by size of operation ranged from 7.60 for operations with 1-99 hogs to 8.80 for operations with more than 2,000 hogs and pigs.

**U.S. hog producers** intend to have 2.91 million sows farrow during the June-August 1997 quarter, 5 percent above the actual farrowings during the same period last year, but 2 percent lower than 1995. Intended farrowings for September-November 1997, at 2.89 million sows are 6 percent above 1996 and 3 percent above the 1995 period.

The total number of hogs under contract, owned by operations with over 5,000 head total inventory, but raised by contractees, accounted for 26 percent of the total U.S. hog inventory.

#### Revisions

**All inventory and pig crop estimates** for 1996 were reviewed using final pig crop, official slaughter, import, and export data in U. S. level balance sheets. Based on the findings of this review, slight revisions were made to the market hog weight group inventories for March 1997.

---

This report was approved on June 27, 1997, by the Acting Secretary of Agriculture and the National Agricultural Statistics Service's Agricultural Statistics Board.

Acting Secretary of  
Agriculture  
Michael V. Dunn

Agricultural Statistics Board  
Chairperson  
Rich Allen

- 1/ Number of pigs born September-November that were still on hand December 1, or had been sold.  
2/ Intentions.  
3/ Individual State estimates not available for the 33 other States.

## Reliability of June 1 Hogs and Pigs Estimates

**Survey Procedures:** A random sample of 14,586 U.S. producers was surveyed to provide data for these estimates. Survey procedures ensured that all hog and pig producers, regardless of size, had a chance to be included in the survey. Large producers were sampled more heavily than small operations. Data were collected from about 12,165 operations, 83.4 percent of the total sample, during the first-half of June by mail, telephone, and face-to-face personal interviews. Regardless of when operations responded, they were asked to report inventories as of June 1.

**Estimation Procedures:** These hogs and pigs estimates were prepared by the Agricultural Statistics Board after reviewing recommendations and analysis submitted by each State office. National and State survey data were reviewed for reasonableness with each other and with estimates from past years using a balance sheet. The balance sheet begins with the previous inventory estimate, adds to it estimates of births and imports, and subtracts estimates of slaughter, exports, and deaths. This indicated ending inventory level is compared to the Agricultural Statistics Board estimate for reasonableness.

**Revision Policy:** Revisions to previous estimates are made to improve quarter to quarter relationships. Estimates for the previous four quarters are subject to revision when current estimates are made. In December, estimates for all quarters of the current and previous year are reviewed. The reviews are primarily based on hog check-off receipts and slaughter. Estimates will also be reviewed after data from the Department of Agriculture five-year Census of Agriculture are available. No revisions will be made after that date.

**Reliability:** Since all operations raising hogs are not included in the sample, survey estimates are subject to sampling variability. Survey results are also subject to non-sampling errors such as omissions, duplication, and mistakes in reporting, recording, and processing the data. The affects of these errors cannot be measured directly. They are minimized through rigid quality controls in the data collection process and through a careful review of all reported data for consistency and reasonableness.

To assist users in evaluating the reliability of the estimates in this report, the "Root Mean Square Error" is shown for selected items in the following table. The "**Root Mean Square Error**" is a statistical measure based on past performance and is computed using the difference between first and final estimates. The "Root Mean Square Error" for hog inventory estimates over the past 20 quarters is 1.9 percent. This means that chances are 2 out of 3 that the final estimate will not be above or below the current estimate of 58.2 million head by more than 1.9 percent, or about 1,106,000 head. Chances are 9 out of 10 that the difference will not exceed 3.2 percent, or about 1,862,000 head (the 90 percent confidence level).

Reliability of June 1 Hog Estimates 1/

	Root Mean Square Error	90% Confidence Level	Difference Between First and Final Estimates	Average	Smallest	Largest	Number of Quarters Above Final	Number of Quarters Below Final
	Percent		1,000 Head				-	-
All Hogs & Pigs 2/	1.9	3.2	1,862	822	0	2,220	10	7
Pig Crop	2.9	5.0	1,277	547	0	1,428	9	9
Expected Farrowings								
Next Quarter	3.9	6.7	195	96	0	237	14	5
Following Quarter	5.7	9.8	283	138	16	346	16	4

1/ Based on quarterly records for the past 20 quarters.

2/ No change was recorded in some quarters.

For your convenience, there are several ways to obtain NASS reports, data products, and services:

### **INTERNET ACCESS**

All NASS reports are now available free of charge on the worldwide Internet. For access, connect to the Internet and select:

1. Worldwide Web: <http://www.usda.gov/nass/> **OR**
2. For Gopher/Telenet/FTP access:  
HOST=usda.mannlib.cornell.edu **OR**
3. For a subscription direct to your e-mail address,  
send an e-mail message to: [usda-reports@usda.mannlib.cornell.edu](mailto:usda-reports@usda.mannlib.cornell.edu)  
and in the body of the message type the word: list

### **AUTOFAX ACCESS**

NASSFax service is available for some reports from your fax machine. Please call 202-720-2000, using the handset attached to your fax. Respond to the voice prompts.

---

### **PRINTED REPORTS OR DATA PRODUCTS**

CALL OUR TOLL-FREE ORDER DESK: 1-800-999-6779 (U.S. and Canada)  
Other areas, please call 1-703-834-0125 FAX: 1-703-834-0110  
(Visa, MasterCard, check, or money order acceptable for payment.)

---

### **ASSISTANCE**

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics HOTLINE** at 1-800-727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [NASS@NASS.USDA.GOV](mailto:NASS@NASS.USDA.GOV).
