

Released February 26, 2010, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on *Honey* call Troy Marshall at (202) 720-3244, office hours 7:30 a.m. to 4:00 p.m. ET.

United States Honey Production Down 12 Percent

Honey production in 2009 from producers with five or more colonies totaled 144 million pounds, down 12 percent from 2008. There were 2.46 million colonies producing honey in 2009, up 5 percent from 2008. Yield per colony averaged 58.5 pounds, down 16 percent from the 69.9 pounds in 2008, and is the lowest yield since 1989. Colonies which produced honey in more than one State were counted in each State where the honey was produced. Therefore, yields per colony may be understated, but total production would not be impacted. Colonies were not included if honey was not harvested. Producer honey stocks were 37.2 million pounds on December 15, 2009, down 27 percent from a year earlier. Stocks held by producers exclude those held under the commodity loan program.

Honey Prices Record High

Honey prices increased to a record high during 2009 to 144.5 cents, up 2 percent from 142.1 cents in 2008. U.S. and State level prices reflect the portions of honey sold through retail, cooperatives, and private channels. Prices for each color class are derived by weighting the quantities sold for each marketing channel. Prices for the 2008 crop reflect honey sold in 2008 and 2009. Some 2008 crop honey was sold in 2009, which caused some revisions to the 2008 crop prices.

Honey: Price by Color Class, United States, 2008-2009

| Color Class | Price | | | | | |

¹ For producers with 5 or more colonies. Colonies which produced honey in more than one State were counted in each State.

² Revised.

³ Honey producing colonies are the maximum number of colonies from which honey was taken during the year. It is possible to take honey from colonies which did not survive the entire year.

⁴ Stocks held by producers.

⁵ Average price per pound based on expanded sales.

⁶ Value of production is equal to production multiplied by average price per pound.

⁷ CT, DE, MD, MA, NH, OK, RI, and SC not published separately to avoid disclosing data for individual operations.

⁸ Due to rounding, total colonies multiplied by total yield may not exactly equal production.

⁹ Summation of States will not equal U.S. level value of production.

Reliability Statement

Survey Procedures: Data for honey producing operations are collected from a stratified sample of all known producers with five or more colonies. States with small populations are not sampled, instead a complete census is surveyed. Individual NASS Field Offices maintain a list of all known honey producers and use known sources of producers to update their lists. All sampled honey producers with five or more colonies are mailed a questionnaire and given adequate time to respond by mail. Those that do not respond by mail are telephoned or enumerated in person. Prices are collected by color class and marketing channel.

Estimation Procedures: Sound statistical methodology is employed to derive the estimates from reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations were estimated based on similar operations or historical data. State offices prepare these estimates by using a combination of survey indications and historic trends. Prices for each color class are derived by weighting the quantities sold for each marketing channel. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness.

Revision Policy: The previous year's estimates are subject to revision when current year's estimates are made. Revisions are the result of late reports or corrected data. Price revisions can be the result of additional sales reported the following year.

Reliability: Since all honey producing operations are not included in the sample, survey estimates are subject to sampling variability. Survey results are also subject to non-sampling errors such as omissions, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

To assist in evaluating the reliability of the estimates in this report, the "Root Mean Square Error" is shown for selected items in the following table. The "Root Mean Square Error" is a statistical measure based on past performance and is computed using the differences between first and final estimates. The "Root Mean Square Error" for honey producing colonies over the past 10 years is 1.1 percent. This means that chances are 2 out of 3 that the final estimate will not be above or below the current estimate of 2.46 million colonies by more than 1.1 percent. Chances are 9 out of 10 that the difference will not exceed 1.9 percent.

Reliability of Honey Estimates ¹

| Item | Root Mean Square Error | 90 Percent Confidence Level | | Difference Between First and Latest Estimates | | | Number of Years | |
|--------------------------|------------------------|-----------------------------|--------------|---|--------------|--------------|--------------------|--------------------|
| | | | | Average | Smallest | Largest | First Above Latest | First Below Latest |

Information Contacts

Listed below are the commodity specialists in the Livestock Branch of the National Agricultural Statistics Service to contact for additional information.

Dan Kerestes, Chief, Livestock Branch (202) 720-3570

Bruce Boess, Head, Poultry and Specialty Commodities Section..... (202) 720-4447

 Doug Bounds - Poultry Slaughter, Turkey Hatchery, Turkeys Raised (202) 690-3237

 David Colwell - Cold Storage (202) 720-8784

 Chris Hawthorn - Catfish Processing, Catfish Production, Trout Production,
 Census of Aquaculture, Egg Products, Mink (202) 720-0585

 Kim Linonis - Layers, Eggs (202) 690-8632

 Troy Marshall - Broiler Hatchery, Chicken Hatchery, Honey (202) 720-3244

ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

INTERNET ACCESS

All NASS reports are available free of charge. For free access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.

PRINTED REPORTS OR DATA PRODUCTS

CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada)
Other areas, please call 703-605-6220 FAX: 703-605-6880
(Visa, MasterCard, check, or money order acceptable for payment.)

ASSISTANCE

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics Hotline** at **800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
