15. Commercial sheep and lamb slaughter: Average liveweight per head, by States and by months, 1967	26
16. Commercial hog slaughter: Number of head, by States and by months, 1967	28
17. Commercial hog slaughter: Total liveweight, by States and by months, 1967 ..	30
18. Commercial hog slaughter: Average liveweight per head, by States and by months, 1967	32
19. Commercial livestock slaughter: Rank of States by number slaughtered, 1967..	34

LIVESTOCK SLAUGHTER, MEAT AND LARD PRODUCTION, 1967

Total production of red meat in the 48 States during 1967, including commercial and farm slaughter, was 34,195 million pounds, up 5 percent from 1966, according to the Crop Reporting Board. Beef production in 1967 amounted to 20,185 million pounds, 2 percent greater than the 1966 production of 19,694 million pounds. Veal production was 792 million pounds, down 13 percent from the 1966 production of 910 million pounds. Pork production totaled 12,572 million pounds, up 11 percent from the 11,328 million pounds produced in 1966. Lamb and mutton production was 646 million pounds, down 1 percent from the 1966 total of 650 million pounds. Beef accounted for 59 percent of the total red meat production during 1967, pork 37 percent, veal 2 percent, and lamb and mutton 2 percent. Lard production totaled 2,076 million pounds in 1967, up 8 percent from the 1,929 million pounds produced in 1966.

The total number of cattle slaughtered in 1967 was up slightly from 1966. Federally inspected cattle slaughter was 2 percent more than a year earlier but other cattle slaughter was down 5 percent. Total calf slaughter in 1967 was 11 percent below the 1966 number. The slaughter of calves in Federally inspected plants declined 10 percent, while other calf slaughter was down 13 percent from 1966. The number of hogs slaughtered in 1967 was up 11 percent from 1966. Hog slaughter in Federally inspected plants increased 11 percent while other hog slaughter increased 8 percent from 1966. Sheep and lamb slaughter in 1967 was virtually the same as the previous year. The number slaughtered under Federal inspection in 1967 was down slightly from 1966, while other sheep and lamb slaughter went up 5 percent.

The average live weight of all cattle slaughtered during 1967 was 1,018 pounds, 9 pounds heavier than a year earlier. Average live weight of calves slaughtered at 234 pounds decreased 6 pounds; hogs averaged 241 pounds, 1 pound lighter; and sheep and lambs averaged 101 pounds, 1 pound lighter than in 1966.

Slaughter in Federally inspected and other slaughter plants is included in the monthly estimates. Beginning with January 1966, the estimates of commercial slaughter and meat production include custom slaughter in plants for farmers. Farm slaughter for 1966 and 1967 includes only those animals slaughtered on farms. Prior to 1966, custom slaughter for farmers was included in farm slaughter. Farm slaughter estimates are available only on a quarterly basis as shown in Tables 3 through 6.

The rank of States by numbers of head slaughtered excluding farm slaughter for each species is shown in Table 19.

This report is made possible through the cooperative efforts of the Consumer and Marketing Service and the Statistical Reporting Service.
