PEANUT STOCKS AND PROCESSING

This report gives final monthly and seasonal data for the Peanut Stocks and Processing reports for the 1966-67 season. Only seasonal totals are shown for the 1965-66 season. According to the Peanut Statistics Act under which these statistics are collected, all shellers, crushers and processors of raw peanuts are required to submit monthly reports of their operations. In most instances the published preliminary monthly reports are based on a complete enumeration of all shellers and crushers and all of the larger processors of raw peanuts. However, due to the large number of small handlers and processors of raw peanuts there are occasionally a few such reports which are not received in time and some corrections made too late to be included in the first tabulation for that month. All possible corrections are made during the following month, and these corrections, together with any late reports, are included in the revised totals for the month as published in the next report. In most cases, this tabulation will stand as the final report for that particular month. Such few corrections as cannot be made in time for the second report are included in the seasonal reports. See "Notice" on page 7.

Table 1.--Stocks of peanuts on hand at month's end, 1966-67
season 1/

End of month	Farmers' stock	Shelled peanuts <u>2</u> /	Cleaned (in shell) <u>3</u> /	Farmers' stock equivalent <u>4</u> /		
				Shelled peanuts	Cleaned (in shell)	Total
	(1)	(2)	(3)	(4)	(5)	(6)

June	5,552	360,116	16,759	478,954	16,759	501,265
July	6,514	264,774	13,578	352,149	13,578	372,241

1/ Excludes stocks on farms, but includes stocks owned by CCC and stocks held by cooperative associations on which CCC has advanced loans. Farmers' stocks are on a net weight basis.

2/ Includes shelled edibles and shelled oil stock.

3/ Roasting stock.

4/ Actual farmers' stock x 1.00, shelled peanuts x 1.33, and cleaned in shell x 1.00 equals total farmers' stock equivalent.

1/ Excludes peanut butter made by manufacturers for own use in candy and/or peanut butter sandwiches.

2/ Includes shelled peanuts crushed.

3/ Crushings by types not available.

(Continued from Page 2.)

NOTICE: Beginning with the August Monthly Peanut Stocks and Processing Report and this Seasonal Report, data relating to inventories and millings of "farmers' stock" peanuts will be in terms of "net weight". Further, in the tables showing stocks of peanuts at month's end (Table 1 of this report) the procedures and factors for deriving "equivalent farmers' stock" have been changed to more nearly reflect current operations. Stocks of total shelled peanuts (shelled edibles plus oil stock) are now converted to an equivalent farmers' stock basis by a factor of 1.33 which is designed to reflect the average total kernel content on a net weight basis. No adjustment is now used for converting cleaned in shell peanuts to an equivalent farmers' stock basis since data as reported are essentially on a net weight basis. Heretofore, in computing gross weight equivalent farmers' stock, shelled edibles have been factored by 1.55 and cleaned in shell by 1.05.
