Carryover Stocks 1 Percent Above Last Season

End of season commercial peanut stocks on July 31 of 357 million pounds were 1 percent above last season's carryover of 353 million pounds.

July 31 stocks included 9 million pounds of actual farmers' stock, shelled peanuts equal to 333 million pounds of farmers' stock, and 15 million pounds of roasting stock.

End of season stocks of shelled peanuts totaled 251 million pounds (actual weight)--227 million of edible grades and nearly 24 million of shelled oil stock. Shelled edibles consisted of 104 million pounds of Virginias, 67 million Runners, and 56 million Spanish. No shelled edibles were held by CCC on July 31, 1969, nor on July 31, 1968.

Millings For Season Up Nearly 1 Percent

Millings for the 1968-69 season (excluding seed) of 2,275 million pounds were nearly 1 percent above last season's millings of 2,259 million pounds. Millings for the season by types were: Virginias, 700 million--up 2 percent; Runners, 584 million--down 5 percent; and Spanish, 991 million pounds--up 3 percent. July millings of 41 million pounds were nearly 25 million above July 1968.

Edible Uses For Season Up 3 Percent--Crushings Up Nearly 2 Percent

Commercial processors during the 1968-69 season used a total of 1,032 million pounds of raw shelled peanuts in the production of specified edible products (excluding oil). This was an increase of 3 percent over last season's total edible usage of 1,002 million pounds. Uses during July of 80 million pounds compares with 79 million in July 1968.

Crushings for the 1968-69 season totaled 491 million pounds--2 percent above last season. Crushings of 33 million pounds in July were 16 percent above July 1968.

Peanut butter deliveries during July 1969, under the Government Food Distribution Program for needy families, totaled 2,584,080 pounds, the same as in June this year.
