

Peanut Stocks and Processing

January 1971

Release:
February 25, 1971
3:00 P.M. EST

Stocks 19 Percent Above Year Ago

Commercial storage facilities held 1,889 million pounds of equivalent farmers' stock peanuts on January 31 -- 19 percent above a year ago. Included were nearly 1,196 million pounds of actual farmers' stock, shelled edibles equivalent to 658 million pounds of farmers' stock and nearly 36 million pounds of roasting peanuts. The farmers' stock included approximately 402 million pounds held by CCC, more than double the 156 million held at the same time last year. The CCC stocks included 27 million pounds of all types (segregation 2 and 3) which were designated as **crushing** stock.

On January 31, there were 495 million pounds of shelled peanut stocks consisting of 449 million pounds of edible grade peanuts. The remaining 46 million pounds were oil stocks. Shelled edibles included 177 million pounds of Virginias, 129 million pounds of runners, and 143 million pounds of Spanish.

January Millings Up 3 Percent

January millings of farmers' stock peanuts totaled 295 million pounds -- up 3 percent from the 287 million pounds in 1970. Millings by type amounted to 99 million pounds of Virginias, 93 million pounds of runners, and over 102 million pounds of Spanish.

Edible Uses Up 2 Percent -- Crushings Up 32 Percent

Production of specified edible products excluding oil, used 88 million pounds of raw shelled peanuts in January compared with 86 million pounds used a year ago -- a 2 percent increase.

Peanut crushings in January were 60 million pounds, an increase of 32 percent from the 45 million pounds crushed in January 1970.

Under the Government Food Distribution Program for needy families, 2,514,240 pounds of peanut butter were distributed in January. Contracted deliveries of peanut butter for school lunches, in January, totaled 7,357,350 pounds.
