Carryover Stocks 28 Percent Above A Year Ago

End of season commercial peanut stocks on July 31, 1971, of 451 million pounds, were 28 percent above last season's carryover of 353 million pounds.

July 31 stocks included 14 million pounds of actual farmers' stock, shelled peanuts equivalent to 421 million pounds of farmers' stock, and 16 million pounds of roasting peanuts.

End of season stocks of shelled peanuts totaled 316 million pounds--289 million pounds of edible grades and 27 million of oil stock. The shelled edible included 127 million pounds of Virginias, 79 million pounds of Runners, and 83 million pounds of Spanish.

Millings for Season 15 Percent Above Last Year

Millings for the 1970-71 season (excluding seed) of 2,604 million pounds were 336 million pounds above last season's millings of 2,268 million pounds. Millings for the season by types were 880 million pounds of Virginias, 685 million pounds of Runners, and 1,039 million pounds of Spanish. July millings of all types totaled 43 million pounds, 27 million pounds above July last year.

Edible Usage for Season Practically Unchanged--Crushings up 37 Percent

Commercial processors during the 1970-71 season used 1,059 million pounds of raw shelled peanuts in the production of specified edible products (excluding oil). This was about 2 million pounds less than last season's total edible usage of 1,061 million pounds. Uses during July totaled 76 million pounds compared with 77 million pounds in July 1970.

Crushings for the 1970-71 season totaled 601 million pounds, 37 percent above last season's total of 437 million pounds. Crushings during July were 48 million pounds, nearly twice the 25 million pounds crushed in July 1970.

Under the Government Food Distribution Program for needy families 2,793,600 pounds of peanut butter were distributed in July.
