PEANUT STOCKS AND PROCESSING
SEASONAL REPORT, 1970-71

This report gives revised monthly and seasonal data for the Peanut Stocks and Processing reports for the 1970-71 season and seasonal totals for the 1969-70 season.

These statistics are collected and presented according to the Peanut Statistics Act which requires all shellers, crushers and processors of raw peanuts to submit monthly reports of their operations. In most months the published preliminary monthly reports are based on a complete enumeration of all shellers and crushers and all of the larger processors of raw peanuts. However, due to the larger number of processors of raw peanuts there are occasionally a few reports which are not received in time to be included in the first tabulation for that month. All possible corrections are made during the following month, and these corrections, together with any late reports, are included in the revised totals for the month as published in the next report. In most cases, this tabulation will stand as the final report for that particular month. The few corrections that cannot be made in time for the second report are included in the seasonal reports.

PEANUT STOCKS AND PROCESSING
SEASONAL REPORT, 1971-72

This report gives revised monthly and seasonal data for the Peanut Stocks and Processing reports for the 1971-72 season and seasonal totals for the 1970-71 season.

These statistics are collected and presented according to the Peanut Statistics Act which requires all shellers, crushers and processors of raw peanuts to submit monthly reports of their operations. In most months the published preliminary monthly reports are based on a complete enumeration of all shellers and crushers and all of the larger processors of raw peanuts. However, due to the large number of processors of raw peanuts there are occasionally a few reports which are not received in time to be included in the first tabulation. All possible revisions, which account for any late reports, are included in the revised monthly totals published in the next report. However, a revision that cannot be made in time for the monthly report is included in this seasonal report.
