Peanut Stocks 12 Percent Below A Year Ago

Peanuts held in commercial facilities on August 31 totaled 491 million pounds of equivalent farmers' stock, 12 percent below a year earlier because of generally slow progress in harvesting. Included in these stocks were 172 million pounds of actual farmers' stock, shelled edibles equivalent to 311 million pounds of farmers' stock, and 8 million pounds of roasting peanuts. Farmers' stock held by CCC on August 31 was approximately 52 million pounds compared with nearly 53 million pounds a year earlier.

On August 31, there were nearly 234 million pounds of shelled peanut stocks consisting of 227 million pounds of edible grades and over 6 million pounds of oil stocks. The shelled edibles included 106 million pounds of Virginias, 56 million pounds of Runners, and 65 million pounds of Spanish.

August Millings Down 42 Percent

Millings of farmers' stock peanuts totaled 50 million pounds, 42 percent below the 86 million pounds in August 1970. Millings by type amounted to 2 million pounds of Virginias, 6 million pounds of Runners, and 42 million pounds of Spanish.

Edible Uses Down 4 Percent - Crushings More Than Doubled

Production of specified edible products, excluding oil, used 91 million pounds of raw shelled peanuts in August, a decline of 4 percent from the 95 million pounds used a year ago. Peanut crushings were 35 million pounds, more than double the 13 million pounds crushed in August 1970.

Under the Government Food Distribution Program, 2,793,600 pounds of peanut butter were distributed in August.
