Carryover Stocks 10 Percent Above A Year Ago

End of season commercial peanut stocks on July 31, 1973, of 431 million pounds, were 10 percent above last season's carryover of 392 million pounds.

July 31 stocks included 57 million pounds of actual farmers' stock. The balance consisted of shelled peanuts equivalent to 357 million pounds of farmers' stock and 18 million pounds of peanuts for in-shell roasting.

End of season stocks of shelled peanuts totaled 268 million pounds--243 million pounds of edible grades and 26 million of oil stock. The shelled edible included 45 million pounds of Virginias, 123 pounds of Runners and 75 million pounds of Spanish.

Millings for Season 9 Percent Above Last Year

Millings for the 1972-73 season (excluding seed) of 2,889 million pounds were 238 million pounds above last season's millings of 2,650 million pounds. Millings for the season by types were 689 million pounds of Virginias, 1,288 million pounds of Runners, and 911 million pounds of Spanish. July millings of all types totaled 41 million pounds, 4 million pounds below July last year.

Edible Usage and Crushings Both Up 4 Percent for 1972-73 Season

Commercial processors, during the 1972-73 season, used 1,136 million pounds of raw shelled peanuts in the production of specified edible products (excluding oil). This was about 49 million pounds more than last season's total edible usage of 1,087 million pounds. Edible uses during July totaled 82 million pounds compared with 79 million pounds in July 1972.

Crushings for the 1972-73 season totaled 639 million pounds, 4 percent above last season's total of 612 million pounds. Crushings during July were 56 million pounds, compared with 37 million pounds crushed in July 1972.

Under the Government Food Distributing Program for needy families, 1,536,480 pounds of peanut butter were distributed in July.
