PEANUT STOCKS AND PROCESSING
SEASONAL REPORT, 1974-75

This report gives revised monthly and seasonal data for the Peanut Stocks and Processing reports for the 1974-75 season and seasonal totals for the 1973-74 season.

Then statistics are collected and presented according to the Peanut Statistics Act which requires all shellers, crushers and processors of raw peanuts to submit monthly reports of their operations. In most months the published preliminary monthly reports are based on a complete enumeration of all shellers and crushers and all of the larger processors of raw peanuts. However, due to the large number of processors of raw peanuts there are occasionally a few reports which are not received in time to be included in the first tabulation. All possible revisions, which account for any late reports, are included in the revised monthly totals published in the next report. A revision that cannot be made in time for the monthly report is included in this seasonal report.

Revisions of Farmers' Stock peanuts were made for June and July. Virtually all of the additional stocks were CCC inventory peanuts which had been transferred to independent storage facilities, and because of the uniqueness of this operation, these stocks were not reported in the June and July Peanut Stocks and Processing reports. Revisions in monthly crude oil production and stocks were also made as several firms which have not previously crushed peanuts were awarded contracts to crush CCC owned peanuts for oil.
