**PIG CROP REPORT**

March 22, 1966

12:00 Noon (E.S.T.)

MARCH 1966

The number of hogs and pigs on farms in the 10 Corn Belt States on March 1, 1966 totaled 38.0 million head, according to the Crop Reporting Board. This is an increase of 1 percent from the 37.7 million head on hand on March 1, 1965. Included in this report is information for the 10 States, Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas.

Inventory numbers on March 1 were above a year earlier for 7 of the 10 States. Iowa, the leading hog producing State, and South Dakota showed no change from a year earlier. The only State showing a decrease was Illinois, where the decline was 2 percent. Missouri, Wisconsin, and Minnesota each, increased 3 percent, Kansas and Ohio, 2 percent, and Indiana and Nebraska, 1 percent.

March 1 hog and pig inventories showed a decrease of 8 percent from the 41.3 million head on hand December 1, 1965. This seasonal decrease is less than in most recent years.

**UNITED STATES DEPARTMENT OF AGRICULTURE**

Statistical Reporting Service

Crop Reporting Board

MtAn 4 (3-66)

Washington, D. C.
The number of hogs and pigs on farms March 1, kept for breeding in the 10 States totaled 7,638,000 head, up 10 percent from a year earlier. Hogs and pigs, other than for breeding, totaled 30,319,000 head, 1 percent less than the 30,768,000 on March 1, 1965.

The other hogs and pigs (intended principally for marketing) in the under 60 pound group, at 11,375,000 head, increased 6 percent. The 60-119 pound group, at 6,435,000, was down 5 percent; 120-179 pounds, 7,470,000, 4 percent; both the 180-219 pound group, at 4,157,000, and the 220 pounds and over group, at 882,000 were down 9 percent.

DECEMBER-FEBRUARY PIG CROP

The December-February 1966 pig crop for the 10 States totaled 12,255,000 head, 7 percent more than the December-February 1965 pig crop of 11,451,000 head. This resulted from increases of 5 percent in the number of sows farrowed and 2 percent in the average number of pigs per litter to 7.35 pigs. The number of sows farrowed was 1,668,000 compared with 1,584,000 for the December 1964-February 1965 period. Nine of the 10 States show increases in the number of sows farrowing, with these ranging from 4 percent for both Iowa and Ohio to 14 percent for South Dakota. Wisconsin shows a 1 percent decrease. On December 1, 1965 farmers in the 10 States reported intentions to increase farrowings by 5 percent during the December 1965-February 1966 period.

For December 1965, the 406,000 sows farrowed was 4 percent above a year earlier. January 1966 farrowings, at 546,000 head, were 7 percent more than in January 1965, and February farrowings, at 716,000 sows, were 4 percent above a year earlier.

MARCH-MAY INTENTIONS

Sows bred and intended for farrowing during the March-May quarter totaled 3,360,000 head, 9 percent more than a year earlier. All States expected greater farrowings than a year earlier, ranging from 6 percent for both Kansas and Illinois to 15 percent each for Indiana, Missouri, and South Dakota. Expected farrowings by months are: March, 1,201,000 sows, up 6 percent from a year ago; April, 1,309,000, up 11 percent, and May, 850,000, up 10 percent. Intentions for this quarter reported on March 1, 1966 are 4 percentage points or 116,000 head, greater than intentions reported for this period on December 1, 1965.

JUNE-AUGUST INTENTIONS

Breeding intentions are for 2,198,000 sows to farrow during the June-August 1966 quarter, 8 percent above a year earlier. All States show increases: Iowa, 5 percent; Illinois and Minnesota, each 6 percent; Ohio, Missouri, Wisconsin, Kansas, and South Dakota, each 10 percent; Indiana, 13 percent; and Nebraska, 15 percent.
