

PIG CROP REPORT

Release:
September 21, 1965
12:00 Noon (E. D. T.)

SEPTEMBER 1965

OST 5-1965

The number of hogs and pigs on farms in the 10 Corn Belt States on September 1, 1965 totaled 43,161,000 head, according to the Crop Reporting Board. This is a decrease of 12 percent from the 48,858,000 head on farms a year earlier and is 16 percent less than the 51,592,000 head on hand September 1, 1963. The 10 States included in this report are Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas.

Inventory numbers on September 1, 1965 were less than a year earlier in each of the 10 States. Iowa, the leading hog producing State, Ohio, and Missouri each were down 9 percent; Kansas, down 8 percent; Nebraska down 10 percent; Illinois and Wisconsin each down 13 percent; South Dakota down 14 percent; Minnesota down 16 percent and Indiana numbers show the greatest decline at 18 percent. September 1 inventories show a seasonal increase of 2 percent from the 42,480,000 head on hand June 1 this year. This may be compared with seasonal increases of 2 percent for the same period a year ago and a 4 percent increase for the June 1-September 1, 1963 period.

1/ Not available. 2/ Actual number. 3/ Number indicated by breeding intentions report. 4/ December preceding year.

The number of hogs and pigs on farms September 1, 1965 being kept for breeding in the 10 States totaled 6,033,000 head. This is 4 percent less than the 6,303,000 head of breeding stock on hand a year earlier. Other hogs and pigs excluding those kept for breeding on farms September 1, 1965 totaled 37,128,000 head, 13 percent less than the 42,555,000 head on hand September 1, 1964. There were fewer other hogs and pigs in each weight group than a year earlier. Classified by weight groups, the number of other hogs and pigs on hand September 1, 1965 and the percentage change from the previous year are: Under 60 pounds, 12,677,000 head, down 13 percent; 60-119 pounds, 10,023,000 head, down 15 percent; 120-179 pounds, 8,717,000 head, down 14 percent; 180-219 pounds, 4,780,000 head, down 7 percent; and 220 pounds and over 931,000 head, down 3 percent.

JUNE-AUGUST PIG CROP

The June-August 1965 pig crop in the 10 States totaled 14,761,000 head, 10 percent less than the June-August 1964 pig crop of 16,366,000 head. This is the result of a decline of 10 percent in the number of sows farrowed and virtually no change in average number of pigs per litter. The number of sows farrowed was 2,038,000 head compared with 2,269,000 head farrowed during the same quarter of the previous year. Each of the 10 States showed a decline in the number of sows farrowing ranging from 4 percent in Missouri to 18 percent in Indiana. On June 1, 1965 farmers in the 10 States reported intentions to decrease farrowings 8 percent during the past quarter. The number of sows that farrowed during June 1965 was 723,000 head, 7 percent less than the number farrowed during June of last year. July farrowings at 584,000 head were 11 percent less than July 1964, and August farrowings at 731,000 head were 12 percent below August a year ago.

SEPTEMBER-NOVEMBER INTENTIONS

Sows bred and intended for farrowing during the September, October, November quarter totaled 1,970,000 head, 5 percent less than a year earlier. All States indicate fewer farrowings than a year earlier except Iowa which indicated the same number as a year earlier. Decreases in the other 9 States ranged from 3 percent in Minnesota and Kansas to 9 percent in South Dakota. Expected farrowings by months are: September, 1,051,000 sows, 6 percent less than the number farrowed during September 1964; October, 599,000 sows, down 5 percent from October last year; and November 320,000 sows the same as a year earlier. The September 1 intentions for the September-November quarter is 3 percent more than the intentions reported for this period on June 1, 1965.

DECEMBER 1965-FEBRUARY 1966 INTENTIONS

Breeding intentions indicate 1,595,000 sows to farrow during the December 1965-February 1966 quarter, virtually unchanged from the same quarter a year earlier. States showing increases were Nebraska and South Dakota each up 5 percent and Iowa with an increase of 4 percent. Illinois and Kansas indicated no change from a year earlier. Declines in intentions were indicated by the following States: Wisconsin, 1 percent; Ohio, 2 percent; Indiana and Minnesota, each 3 percent, and Missouri, 6 percent.
