Introduction

Potatoes and Sweet Potatoes: Final Estimates by Season and State, 2008-2012. U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 1047.

Introduction: This bulletin presents final estimates including revisions made by the Agricultural Statistics Board (ASB) for potatoes and sweet potatoes by season, State, and U.S. for crop years 2008-2012. Estimates were originally published during calendar years 2008-2013 in periodic ASB reports. Data included in this publication provide a historic record and a benchmark for successive estimates.

Procedures: Revisions were made after a thorough review of the original survey data and all additional data now available, including the 2012 Census of Agriculture. Other data series considered include Market News Service shipments, USDA farm program administrative records, import and export data, and our own surveys of quantities processed. The ASB evaluated the current acreages with historic totals to assure comparability with past Census relationships. The 2008-2012 estimates shown herein are considered final and will not be revised again.

Revisions were made to the value of production for the same years production was revised. In addition, U.S. prices were adjusted based on changes to State sales and production. Price estimates represent average returns to growers for all uses and for all methods of sale. These prices were applied to total production to compute value of production. Some unsold quantities, such as seed and livestock feed used on farms where grown, farm home use, and loss, contribute to the value of production. The United States season average price is obtained by weighting State and seasonal prices by quantities sold.

Potato production, disposition, and value of sales in each State have been classified by season according to the period when the largest supplies are usually harvested. The four seasonal groups are classified as winter, spring, summer, and fall, with the season corresponding generally to the calendar quarter. The crop year is associated with the calendar year in which harvest is conducted. Marketing or sales closely follow harvest except for fall potatoes where marketing from storage may extend through August the following year.

Historical Estimates: Final estimates of potatoes and sweet potatoes in earlier years are available in Statistical Bulletins No. 998 for 1997-2002, No. 962 for 1992-1997, No. 901 for 1987-1992, No. 799 for 1982-1987, No. 709 for 1978-1982, No. 645 for 1974-1978, No. 583 for 1969-1974, No. 490 for 1964-1969, No. 409 for 1959-1964, No. 291 for 1954-1959, No. 190 for 1949-1954, No. 251 for potatoes 1866-1953, and No. 237 for sweet potatoes 1866-1953. Statistical Bulletin No. 829 *U. S. Potato Statistics* contains extensive information relating to potato production and marketing. Productions by the current four season configuration are carried from 1949 to 1989. Price data are found in Statistical Bulletins No. 699 for 1949-1978 and No. 163 for sweet potatoes 1909-1953 and potatoes 1909-1952.

Agricultural Census Publications: The U. S. Department of Agriculture's National Agricultural Statistics Service (NASS) released several products from the 2012 Census of Agriculture on May 2, 2014. The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census includes all places from which \$1,000 or more of agricultural products, including government payments, were produced and sold, or normally would have been sold, during the census year. Census publications also include demographic items such as sex of operator, residence on or off the farm, days worked off farm, years present on farm, age group categories, race, and number of persons living in each household.

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: <http://www.nass.usda.gov>
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit <http://www.nass.usda.gov> and in the “Follow NASS” box under “Receive reports by Email,” click on “National” or “State” to select the reports you would like to receive.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form.
